** JIT Debugging **
To enable just-in-time (JIT) debugging, the .config file for this
application or computer (machine.config) must have the
jitDebugging value set in the system.windows.forms section.
The application must also be compiled with debugging
enabled.

For example:

```
<configuration>
    <system.windows.forms jitDebugging="true" />
</configuration>
```

When JIT debugging is enabled, any unhandled exception
will be sent to the JIT debugger registered on the computer
rather than be handled by this dialog box.Also in the username i typed:(e-mail)@gmail.com and the

password in the password field,sent it to a friend,he opened it and still no logs....

Can you give me the directlink like mediafire or something :DD looks amazing

Zhen. - *February 20, 2012, 5:15 pm*
Would like to have a try with this mate
Thanks in advance

LeviSouthall - *February 21, 2012, 4:04 pm*
Just wondering if you are able to send me the link it would be greatly appreciated thanks, Preferably ones without surveys

jaco - *February 21, 2012, 4:34 pm*
I know surveys are a pain in the ass but this guy has took time to do this and wants some reward for it, id do the same and besides they dont take that long to do especially when you just fill out rubbish to the questions. Is this still FUD?

Edit:
I just dont the survey and i got a blank file download windows cant recognise it and i cant open it? lol whats all this about

MaddyCumOnPatrick - *February 22, 2012, 3:53 am*
Nice work man thanks you very much :)
