Are you trying to take full control of a remote PC?
Are trying to find out the password of an email address?
Are you trying to spy on your spouse/children etc?
Do you want to find out the truth?

OR

you already have your weapons in your arsenal but you need some help going unnoticed on the battle field? (crypting)

(Do not forget to Check out the video I made today...
<http://www.youtube.com/watch?v=MQntxxQUAI0>) its about encryption...

What i offer:

Help you do any of the above...
You will have a choice among 3 to 5 weapons (Trojans) all with unique features.

All this for a small fee. A one off fee with lifetime support.

normal fee: 29\$

First 3 customers this year> 50% discount + vouch for me in the forums.

Cheers

Not hacking, skiddism. Who would buy tools you can get for free with a little knowledge and searching?

I'm not trying to be mean, just asking.
