I liked iPaToXx's better here. I'm a bigger eminem fan than I am Ke$ha, but the eminem one seemed fruity and like it wouldn't fit him.

I really like what you did with the Eminem one RaidGame.

I like the background on the Eminem one but i don't feel like it fits home so i have to go with the first one.

For me the Ke$ha look matching to the background. Eminem's need some seriousness.
