Thread: Huge Render Pack!

gravypod. - *April 20, 2011, 1:16 pm*
I have had a huge render pack on my computer for a while now. Don't remember the origin of where I got it, but I do not take credit for creating this.

http://www.#/?d=2SPO0B37
Render: 496
This includes renders of gaming characters, anime, real life, and more!

Your welcome.

You should add some preview images of the renders before people download them,
I would really like to see what I'm downloading before I begin downloading a pretty large file.
Thank you for sharing though, I appreciate this. :)
