what payment method are you using? n0$f3ratu$ is picky with paypal.

As soon as you contact the owner through private message, after you buy it, Private message him the Transaction ID.
Then he'll send the crypter to your primary email address to your paypal.
This should be posted in : Cryptography, Encryption, and Decryption

Instantly? Because it says he is offline. I'd rather wait till he comes online.

You will need to pm him first, it says on his thread he verifies paypal himself. just get cube for 1 month it has auto-buy.
