Hello HF, I have decided to give back to this community with a PayPal money contest ;)

L33t/Ub3r: They will be able to get $1 each, and I will give to 4 users.
Regular Member: They will earn $.15 and there will be 6 winners for this.

This is a contest, so there will be a small application.

First winner is Ddragonite72. I know Ddragonite72 is HQ, since I see him/her around a lot on the forums, and doing lots of good stuff.
This does NOT mean that the above people will not win, this is just the first winner.
I will pick some more people in a bit. Meanwhile, other people can still create applications! Good luck ?
