Thread: [Mega Thread] Scantime + Runtime Crypters Sources

Theref - *November 30, 2009, 4:26 pm*

Well, i'm not the creator of these crypter. I'm just gather them and learn from them. Well, All of them is not FUD (not even UD lol), but at least you can use it to learn how the crypter works or Re-FUD it. ?

For those who are still beginner in crypter, stub, and etc, check out kutmustakurt thread about it. It will help a lot
https://hackforums.net/showthread.php?tid=207201

Epeius Crypter [2.0] [Run-Time]
[img]http://i50.[censored].com/n2y9n4.png[/img]
The source code is written in Delphi. Credits goes to opensc.ws
Download

Blue Rat crypter
[img]http://i42.[censored].com/29cqsf7.jpg[/img]
Written in VB6. Runtime, support EOF and many type of encryption. Credits goes to opensc.ws
Download

Open Source Code Crypter 1.0
[img]http://img504.imageshack.us/img504/9532/newbitmapimages.png[/img]
Written in Delphi, Credits goes to opensc.ws
Features:
10 file limit
Memory Execution support
EOF-Settings support
Custom Stub support
Drop to Harddrive support
Multi-language support
Download

carb0n crypter 1.7 (supports EOF version)
[img]http://img200.imageshack.us/img200/1526/newbitmapimageyq.png[/img]
Have a good looking GUI, support EOF, Built in icon changer, etc. Written in VB6. Credits goes to opensc.ws
Download

NT2 CRYPTER
[img]http://img200.imageshack.us/img200/5977/newbitmapimageyf.png[/img]
Credits goes to opensc.ws
Features:
GUI coded in VB6

Stub size uncompressed: 24Kb OS: NT/XP,XP64/Vista/Vista64
FUD (Runtime and Scantime) Don't use external programs Important!
Icon changer (Icons pack included) Anti virtual machines (Optional)
AES/RC4 encryption NEW! Ability to change entry point.
Anti-emulation code, uses ThunderVB!
* Good design
Download

uNKcrypt0r source [written in c++]
1) compile XOR.exe to make a encrypted strings.h file
2) copy strings.h to /Stub
3) compile crypter gui & stub

Download

HackHound Crypter [Coded by Legssmit] | Thanks to Jboomerz
[img]http://img692.imageshack.us/img692/4291/newbitmapimageds.png[/img]
The anti's Include:
Anti sandboxie/cws sandboxie, joebox, ThreatExpert,Abubis,Vmware,Virtualpc,Virtualbox.
Has Eof Support (ReAlign Pe Headers, Preserve Eof Data,Melt stub(with drop in temp folder example 673353.tmp)
Enable fake message support
kill process when ran option
Inject into Default broswer,explorer.exe, and svchost.exe
And Icon changer.
http://www.#/?d=I68US2IB
Password : HackHound

Newly Added

Royal Crypter
[img]http://i48.[censored].com/2eygw7m.jpg[/img]
Thanks to kutmustakurt. Coded in VB6
Download

Fire Crypter
[img]http://i50.[censored].com/ezegph.jpg[/img]
Thanks to kutmustakurt. Coded in VB6
Download

cheers ?

If you have some, PM me, i will add them to this mega thread ?

Verbal Seduction - *November 30, 2009, 5:40 pm*
Verry nice good job
too long

R3aPeR - *November 30, 2009, 5:41 pm*
Thanks much, would + rep if I had l33t

Widow's Peak - *November 30, 2009, 5:42 pm*
Good Collection, Thanks.

TuViciouz - *November 30, 2009, 6:17 pm*
Thanks for posting this.

$weet - *November 30, 2009, 6:31 pm*
excellent combo of crypters man, i too learned to make mine fud from this ...

$weet - *November 30, 2009, 8:05 pm*
You know what, im bumping this b/c this thread is too useful to go unseen, if you see this pls comment so others will see it too, thanks all. Great job to the up loader btw, :D

Theref - *November 30, 2009, 9:33 pm*
(Nov 30, 2009 09:05 PM)Coders Central Wrote: *[CITE]* You know what, im bumping this b/c this thread is too useful to go unseen, if you see this pls comment so others will see it too, thanks all. Great job to the up loader btw, :D
LoL, thanx mate ?

CustomSync - *November 30, 2009, 10:02 pm*
Awesome man, this is perfect for people getting in to coding crypters
Great post
would + rep if I could

Theref - *December 1, 2009, 1:25 am*
Thanks mate,

btw is there anyone that have tried this beside me? ? post your feedback here pls

Don Pedro - *December 1, 2009, 1:40 am*
Very nice share! ?

Shit they contain the sources too, lol didnt notice on the title xD

If you flame:
Spoiler (Click to View)
Your mom got a mustasch ;)

Fish - *December 1, 2009, 2:18 am*
Thanks for this

I have been looking at NT source there is a auth system but its easy to bypass just simply look for

Code If CheckUser("carb0n") = True Thenand change it to
Code If CheckUser("carb0n") = False Then
and then find

Code If Update("Update") = True Thenand change it to
Code If Update("Update") = False Then

But from what I can see it is messing up most new files I have tested on Metus and Apocalypse Rat both don't Work with it so if you do find any programs that work with it be sure to let me know

Gizmo - *December 1, 2009, 2:41 am*
I like high quality post.

Thanks for sharing this with us mate, I like it. If I had HF l33t I would +rep you. ;)

Neroxan - *December 1, 2009, 2:55 am*
Ill have to take a closer look @ that one in vb6 thats runtime... Id like to learn how to build my own with vb but dont want to waste my time with only scantime.

Theref - *December 1, 2009, 3:19 am*
(Dec 1, 2009 03:18 AM)Fish Wrote: [CITE] Thanks for this

lol don't bother with something like bypass auth ?

Before
```
Code Private Sub Form_Load()
If CheckUser("carb0n") = True Then
MsgBox "Authentication >>> Access Granted.", vbInformation, "Authentication"
Else
MsgBox "Authentication >>> Access Denied.", vbExclamation, "Authentication"
End
End If
'-----------------------------------------------------------------------------------------------
'Do not modify
If Update("Update") = True Then
Else
MsgBox "Your files are out of date! Please update, there is a new version available."
End
End If
'-----------------------------------------------------------------------------------------------
End Sub
```
after
```
Code Private Sub Form_Load()

End Sub
```
just delete them ?

flAmingw0rm - *December 1, 2009, 4:38 am*
Thanks for sharing the sources, but there is none for VB.NET. =(

Theref - *December 1, 2009, 5:19 am*
(Dec 1, 2009 05:38 AM)flAmingw0rm Wrote: [CITE] Thanks for sharing the sources, but there is none for VB.NET. =(
i never found crypter source code thats written in VB.net ???

Anubis - *December 1, 2009, 6:05 am*
WTF MAN...Thanx you...really thanX i needed some of tehse

Fish - *December 1, 2009, 9:56 am*
(Dec 1, 2009 05:38 AM)flAmingw0rm Wrote: [CITE] Thanks for sharing the sources, but there is none for VB.NET. =(
why would you want one in VB.net as everyone who ran the file would need net frames and this would cut your spreading size in half

Loka~ - *December 1, 2009, 10:42 am*
thanks im gunna look of some codes, i need to learn more before making "Loka123's Micro Crypter v.2"

^___^

thanks

shadow4u - *December 1, 2009, 11:14 am*
avast blocked them as worms why?

Loka~ - *December 1, 2009, 12:11 pm*
(Dec 1, 2009 12:14 PM)shadow4u Wrote: [CITE] avast blocked them as worms why?
Because the stubs are detected prob.....

Theref - *December 2, 2009, 6:28 am*
(Dec 1, 2009 01:11 PM)loka123 Wrote: [CITE] Because the stubs are detected prob.....stub is something that you have to take look into, the crypter does nothing coz it just encrypt the data

uNKcrypt0r source
1) compile XOR.exe to make a encrypted strings.h file
2) copy strings.h to /Stub
3) compile crypter gui & stub

Download

Good luck with that ?

Don Pedro - *December 3, 2009, 6:38 am*
(Dec 3, 2009 07:32 AM)Theref Wrote: *[CITE]* uNKcrypt0r source
1) compile XOR.exe to make a encrypted strings.h file

You have Fly Crypter source code eh?

Neroxan - *January 29, 2010, 6:08 am*
(Jan 23, 2010 12:45 AM)Theref Wrote: [CITE] You have Fly Crypter source code eh?

Yes, I gave it to you a while back remember? You couldent find the encryption key for the rc4 when we were on msn messing with it trying to add a ispreade module. lol

Take a flip back to page 9....

(Dec 21, 2009 08:06 AM)Imwyldechylde Wrote: [CITE] This one may confuse more than help but Ill add it in for a legitamate bump anyways.
Fly Crypter v2d + Uniq Stub Generator 0.3
http://www.multiupload.com/GC0R9L1LRY
Its like magic baby. lol?

edit:btw are the "firecrypter" or "royalcrypt" that kut added runtime or just scantime?

Theref - *January 29, 2010, 6:35 am*
(Jan 29, 2010 07:08 AM)Imwyldechylde Wrote: [CITE] Yes, I gave it to you a while back remember? You couldent find the encryption key for the rc4 when we were on msn messing with it trying to add a ispreade module. lol

Yes, but it just Fly Crypter's Stub Source, not the crypter itself lol.

The firecrypter and royal crypter is Runtime too

Neroxan - *February 3, 2010, 11:11 pm*
(Jan 29, 2010 07:35 AM)Theref Wrote: [CITE] Yes, but it just Fly Crypter's Stub Source, not the crypter itself lol.

You havent looked in the rar have you.?
USG 0.3 and old flycrypter client source are there together mate. To give one and not the other would be a near sin. lol

Oh and here is another find for you as well Its HHv4 crypter... VERY fuckin awesome, but I havent

been able to fud the source yet, it crashes my undetector's(like all 5 of them) so it will take some time to do manually. Could be usefull for the shit ton of options it has otherwise.
http://www.multiupload.com/DVQBAJK0TF

Also UnDo crypter which was written by who!.
The coder is notorious for backdooring his applications, but Ive looked through the source and see nothing out of the ordinary thus far.
http://www.multiupload.com/EVQTE1VB54

Ive got some more that I need to go through as well, dunno whats what of those yet.

-mothered- - *February 4, 2010, 1:32 am*

HackForums censored words "HACK HOUND" (without space) into "SPAM"

OxygenX - *August 26, 2010, 3:28 am*
First of all thx for this great thread, for all those sources, etc.

The PW for the spam Crypter isn't "SPAM" its "HackHound". (At least this pw worked for me)

But when I try to build the source I get strange errors like these

http://img37.imageshack.us/img37/7089/45568327.png

Could anyone help me with this?

P.S
I am using Visual Studio 8 with Windows 7 x64

Theref - *August 26, 2010, 5:00 am*

You need advanced knowledge to programming a crypter.
