Thread: Christmas Banner

Warbiest - *December 15, 2009, 8:56 am*

Basicly I made an "Unofficial HF Chrimstas Banner" THread in the gfx section:
https://hackforums.net/showthread.php?tid=205121

Almost everyone in that thread suggested, that it should be the HF Christmas Banner. Against my will at first, I did finally make a thread here, as people started pm'ing me and mentioning it over msn.

So just vote in the poll, if you think it'd be a nice HF Christmas Banner or not.
Here it is:
[img]http://i433.photobucket.com/albums/qq56/Warbiest/ChristmasBanner.png[/img]

I've done some research on last years HF Christmas Banner and in some old dusty thread's I found it:
[img]http://i484.photobucket.com/albums/rr204/HOTICE/santa.png[/img]

Also Omni mentioned last year, that it'll be up for 3 days, so enough time to vote in the poll.

Peace out. ?

Theref - *December 15, 2009, 9:00 am*

Yes, It would be good for HF Christmas banner! ?

SimplyIgnored - *December 15, 2009, 9:00 am*

Wow, I love the first one, Warbiest. Maybe have no snow on the "If you can believe you can achieve.". Other then that, wonderful!

Change the if you believe you can achieve to Merry Christmas.

Otherwise, good.

Maybe change the "If you can believe you can achieve." into "Ho.ho.ho" or something related with santa

EDITED: Opps, didn't see my above post

iBruteforce - *December 15, 2009, 9:04 am*
I think this should be used.

Warbiest - *December 15, 2009, 9:05 am*
Yes I have to agree with all of you above.
The snow on "If you can believe you can achieve" looks a bit weird and something replacing that would look much nicer.
I didn't do anything to it, as I don't have the .psd file for it. Omni has it (most probably) and it take him only 2 clicks
to replace it with something else. But I guess I can give it a try at erasing the text and redrawing the background. >.>

Wow, glad so many people like it.

CyberHR - *December 15, 2009, 9:06 am*
I like 1st banner but like santa from 2nd :D Compile this two? :)

I support this as our new HF banner. Also, there aren't any votes on "No! I want another/nicer one!", so I guess this wins.

Awesome work. I hope Omniscient chooses to use the first one. It looks great. With a few alterations it will definitely bring the Christmas feel to the forums.

"A" Fucking Plus!!!

Not only will I use it but you get a Diamond award that's how good it is. You deserved an award anyways for being an overall good member.

Can you make one change though?

Alter the "if you can believe..." to "Merry Christmas to everyone!" with that same snow effect. Save it as a jpg with 90 quality. If you don't know how to compress then just post it as PNG and I'll edit it myself. Your file was 80k and I changed it to about 30k.

Thanks so much. It's great.

Honestly, I think that is the nicest thing Omni has ever said.

But honestly Warbiest deserves it, hes a great member with a lot of amazing skill.

He's my homeboy ^__^ Wouldn't go to anyone else for a GFX

I agree, Eyy Warbiest, make one of those logo's for your own new award!

Why don't Warbiest become like the official HF Designer? (+ GFX section mod)
I mean he has done many things for HF like for example the banner with the hands and the christmas remix on the "HackForums".
Also if admin requested something, he would probably do it asap with great results. I would use this here below in my sig if it fits but I'm afraid if I did that then... you would never become that unless Hanzo approves.

Warbiest for HF Designer 2010!

I don't think there's much we can do about that, it's not on HF and none of our concern (as long as he doesn't advertise his forum). But the original coders should be notified.

I'm glad to see that almost everyone likes the new banner. :)

I will soon make the changes you suggested Omni. It would be much easier with the .psd file, but also without it, it won't be hard to do the edit.

*Update

Here's the new banner Omni:
[IMG]http://i433.photobucket.com/albums/qq56/Warbiest/Christmasbanner-1.jpg[/IMG]
It was easier to edit the text, then I though. I tried out red, but it didn't look good, so I sticked with the original green.
As requested, image size is ~30kb, without loss of quality.

Still can update it in any way.

The only thing with the update, Warbiest... I would personally capitalize the "Everyone".

Since it is technically a subtitle, all words should be capitalized other than the words like "to", "and", "or", etc.

See my meaning? :)

Warbiest - *December 16, 2009, 8:21 am*
Yea I see what you mean.
I just copied Omni's text from page 3:
https://hackforums.net/showthread.php?tid=205700&page=3

I'll just make a second banner, so Omni can decide between E & e. :P

DaVoiDiot - *December 16, 2009, 8:27 am*
Everyone should stay "everyone"
and the snow on that small text, it's a little weird.
If any snow then maybe it should be on top of all the text "Merry christm...."
like it is on the house roofs.

Warbiest - *December 16, 2009, 8:38 am*
Yes, the snow on the smaller text is the hardest to do.
I tried that, but then the text got un-readable.

Anyways, to post again:

everyone with small e:
[IMG]http://i433.photobucket.com/albums/qq56/Warbiest/Christmasbanner-1.jpg[/IMG]

everyone with capitalized E:
[IMG]http://i433.photobucket.com/albums/qq56/Warbiest/ChristmasbannerE.jpg[/IMG]

Both images altered to ~30kb, without loss of quality.

Incorrect. Titles and subtitles should always be capitalized, unless it is an exception word as stated earlier, such as "and", "or", "to", etc.

A link to prove my point if you don't believe me in the most basic of grammar...
