Thread: [False -Neg rep By Scammer WizCraft](#)

Capo - January 28, 2011, 1:03 pm

I was scammed with a bunch of people by wizcraft for selling me a not working booter. After a week or so I ended up charging him back. He wasn't banned yet and left me -3 calling me a scammer when he in fact scammed everyone lol. He has -33 and is banned so I was wondering how in fact I could get this removed? Because I take pride in how I handle myself on here. Legit. Please help. Ty.
