Thread: Multi-Accounting User , User Admits it via skype + Proof.

**Mentoring** - *April 18, 2012, 11:01 am*

Hi , I have come into contact with a user who admitted multiaccounting over skype to me. This was during a rsgp transaction. As Soon as I heard , the deal was off.

User : Benjamin Franklin
Profile Link : https://hackforums.net/member.php?action=profile&uid=1251960
Possible Scams : https://hackforums.net/showthread.php?tid=2414645 (He was trading me for rsgp , this is an rsgp sale..)

I hope this user will be banned VERY soon. If a staff or extremely trusted member wishes to come on teamviewer and see the evidence to make sure its not photoshopped or anything , feel free to ask.

You should report him to the staff then, and if proven, he'll be banned for multiaccounting.

Well, he didn't actually scam you.

Thanks for warning everyone, though.

Also - You might want to post actual pics of the Skype chat. Anyone can type that out. :P

This would have better been PM'd to a staff but nice that you averted a scam ( if he was going to) I'm sure everyone has there reasons for not going first on deals on HF so I don't really blame him, but admiring that he is a multi-accounter that will be proven when they check on him.

Although he might have just said that just to make you go through with the transaction thanks for the heads up none the less.
