Let's Start ...

This is my 6th tutorial, for all previous tutorials please check the top of this post. Today I'll show you a list of up to 100 fiverr Gigs you can start selling right now, this is a compilation that's available for free and credits were given at the bottom of the thread, I made it look nicer to read on forums.

Fiverr allows for 20 gigs per account, and a lot of users only create 2-3 gigs total! To best optimize your earnings potential on Fiverr, I'd recommend using up all 20 gigs. This tutorial will help you find other gigs you can easily sell on Fiverr, many of which only require a few tools on the internet and little skill.

This is gonna be short and sweet.

Requirements.

Time and patience.

Creating fiverr account is rather simple, so I'll just skip it. Let's head directly to the list of things you

can sell. You'll find different sections.

1. 3D Book Mockup

There are a lot of authors on Fiverr looking for things like e-book covers and even mockups for their books. You don’t have to be a graphic designer or Photoshop whiz to be able to create a great looking 3D book mockup. You can find a lot of templates on Graphic River but you have to be careful with their usage and licenses. There are also free templates on the internet if you search for them.

2. T-Shirt Mockup

A lot of people want to see their logos/designs on t-shirts and you can easily whip up a mockup using a template. You can buy a t-shirt mockup template from Graphic River or find a free one on the internet with a Google search.

Business owners and software developers come to Fiverr looking for mockups for their product and packaging. You can find paid packaging and box mockups on Graphic River but again, there are free alternatives on the internet if you search for them.

4. Website Mockup

There are templates on the internet that can mockup a website by displaying it on a laptop or computer screen. This is useful for webdesigners who want to show their clients their design and how it would look on a computer. Graphic River has these kinds of mockups but again, be sure to see licenses regarding usage.

5. App Mockup

Many app developers like to include mockups of their apps shown on a tablet or smart phone for the screenshots on their website or on the app's listing itself in the Google Play store or Itunes App store. Graphic River has some excellent mockup templates but again you can find some free if you search for them.

6. CD/Album Cover Mockup

Musicians, rappers and DJs are another great demographic of buyers to create gigs for. You can quickly and easily create a 3D mockup of their album cover and cd case using a template from Graphic River or one you find for free online.

7. Logo Design

Logo design is one of the most in-demand gigs on Fiverr, if not the most indemand right now. You don't have to be a graphic designer or even own any graphic design software to create logos either. Use a free website like LogoYes to create logos for buyers on Fiverr.

8. App Icon

App developers that don't have any graphic design skills look to Fiverr to outsource their app icons. There are a lot of ways you can go about creating one, including generators online, but the best way is to find a template and use it.

9. FB Timeline Cover Photos

This is a surprisingly in-demand gig and it is very easy to do. There are a lot of free tools you can use to generate a great looking timeline photo. Cover Junction, Timeline Cover Banner, Pic Scatter, and FaceitPages will all do the job.

Look for free templates online that are the most common dimensions for ads and use those to create simple ads for your buyers.

11. Favicons

12. Word Cloud Image

A new trend for a lot of blogs and websites is to display create Word Clouds for their website for either the most popular/common words used on their website or just words they wish to include in the Word Cloud. There are a lot of free tools online, like this one, that can do it for you.

13. Photo Touchup/Red Eye Removal

If you're skilled or experienced with Photoshop, retouching is a highly sought after gig, especially for something such as red eye correction which can easily be corrected in Photoshop or even with a free online tool.

14. Simpsons/South Park Character

Another easy to make yet surprisingly popular gig is to take someone's photo and creating a Simpsons or South Park character based on how the buyer looks. Using this Simpsons character creator or this South Park character creator, you can complete an order in 10 minutes.

Simple graphic design jobs like saving images in different formats, changing the color of objects, and deleting the background from images are all quick jobs you could charge $5 for on Fiverr.

Writing

Writing Gigs (Click to View)

22. Write/Spin Articles

This is very much in-demand. You can choose to either write the articles from scratch (recommend 100 words per $5) or spin them with WordAi (recommend 500 words per $5). Spinning essentially involves finding an articles from a site like EzineArticles.com related to the niche your buyer wants, then using a spinner or rewriter like WordAi to rewrite the article for you so it passes all plagiarism checkers and duplicate content checkers.

23. Edit Articles

If you have the patience to proofread and edit people's work, you can use advanced editing software like Grammarly to edit 1000 words in 10 minutes.

24. Book Reviews

Kindle book reviews on Fiverr are really big right now. Be sure to offer a verified review (a review where you actually purchase their book and then review it) and in your gig extras, allow buyers to cover the cost of their book if it's not free.

25. App Reviews

App reviews are big on Fiverr, especially for the Android. If you have an iPhone but not an Android device, I would recommend downloading the Android emulator BlueStacks to leave Android app reviews. Remember to include gig extras or encourage multiples to cover the cost of paid apps.

26. Listing/Directory Reviews

A lot of businesses have listings on sites like TripAdvisor, Google Places, and FourSquare with no reviews and often times to come to Fiverr looking for someone to leave a review. This is an easy copy and paste gig.

27. Press Release Writing/Press Release Submission

Google “Press release template” and use that for this kind of gig. You could also submit the buyer’s press release as a gig extra or a separate gig altogether. Here’s a good list of sites to distribute to that are free.

28. Write Sales Copy/Headlines/Taglines

If you’re great at writing sales copy (or even decent at it) this is great, short work.

29. Comments On Blogs/Videos/Social Media

Contribute $1 to Fiverr user’s Indiegogo campaigns, share campaign on Facebook and leave a comment for $5 on Fiverr.

37. Article Submission

You can manually submit articles as either a gig extra or separate gig for your buyers.

SEO (Search Engine Optimization)

Use a keyword analysis tool like Ultimate Niche Finder to create excel reports for buyers showing keyword competition. You can also use Google’s Keyword Planner tool.

39. Domain Research

Create a gig where you will do domain research for a company and create a report showing which domains are available for their brand/niche that would work best. I like to use Who.Is.

40. Niche Research

Perform niche research or supply buyers with a niche that has a good average monthly search on Google and a high CPM for advertisers, meaning it’s a great niche to build a website for and place Adsense ads on. Ultimate Niche Finder is a great tool for this.

42. Send Traffic To Website

Find traffic services for $1 on SEO Clerks and resell them on Fiverr for $5.

Social Media Gigs (Click to View)

44. Tweet Messages To Followers

If you have a lot of Twitter followers or create an account and buy a lot of Twitter followers for it, you can sell Twitter messages/ads to your followers for $5.

45. Social Signals

Buy social signals to a website such as Facebook shares and Google pluses from SEO Clerks and resell them on Fiverr for $5.

Vine services are still new and not highly in-demand as other social media sites, but as Vine grows, so will the demand for these gigs. SEO Clerks has a few $1 gigs to resell.

50. Instagram Likes/Followers

Instagram is very much in-demand, especially Instagram likes. Resell $1 SEO Clerks Instagram gigs for $5 on Fiverr.

51. Pinterest Followers/Repins

Again, SEO Clerks is a great place to resell from on Fiverr.

52. Create Facebook Fanpage/Page For Business

You’d be surprised how many business owners don’t know how to even create a Facebook page for their own business. This is a great easy business.

53. Setup Social Media, Create YouTube Channel

Better yet, you can have a package where you create pages on all major media services for the buyer’s small business on sites like YouTube and Twitter either as a gig extra or separate gig.

54. Manage Social Media

Create a gig where you will manage a company’s website for a day.

55. Share Links/Promos To Twitter/Facebook

Share a link to a company website to all your Facebook friends and all your social media profiles.

56. Create And Sell Accounts

You can create accounts for social media websites and sell them on Fiverr. You may need to use proxies and create email addresses for each account. You may need to phone verify accounts as well.

57. Video Testimonials/Spokesperson/Review

This is very much in-demand and very easy to do. I highly recommend this gig for newbies on Fiverr to start making some money.

58. Product Testimonials

Ask for your buyer to mail you a physical product, or record yourself using a virtual one, such as an app, website or game. The idea is to record yourself using the product while providing a testimonial.

59. 5-Minute Video Critiques

Instead of writing a critique for something like a website, product or app, why not record yourself offering one? It's much more personalized and it is unique.

60. Whiteboard Animations

This is very easy to do and very much in-demand. Go to Sparkol, sign up for a trial and learn the software in only minutes. It's very easy to use and great for creating brilliant animations. I would recommend $5 for 10 seconds of animation.

61. Edit Video/Add Music/Graphics

If you have Windows Movie Maker, you could do easy video edits for $5 such as adding music to videos, adding a watermark, etc. You could also use premium software for more options such as Camtasia.

62. Convert Audio/Video Files To Other Formats

There are a lot of free converters online but you'd be surprised how many people pay for a service like this. You can convert .AVI to .MP3, or even a YouTube video into an MP3.

Creative

Creative Gigs (Click to View)

63. Voiceovers

You don't need to be a professional to do this. You could offer 30 seconds of a voiceover for $5.

64. Use Pets For Videos/Pictures

If you have a pet, you can use them in creative ways for things like signs, videos, photos, etc. and buyers and Fiverr love stuff like this.

Conclusion

That's it, start taking action today and be creative. If you liked the thread please post to keep it alive. Regards.

All the little things that many people can do.

It's not my cup of coffee but it sure works (I'd rather think for months to find that one method that is effort efficient :)), but real work for real money, no rocket science, down to earth services.

This is especially good for all the newbies asking for "few $ / day method".
Yes, it takes effort and it's repetitive ..... but it brings rewards and newbies still learn alot while actually making profit.

And it's almost instant money, not some skyhigh, but solid.

These are my old (and not that HQ and indepth threads):

@ Magicmann, read closely and leave the thread for questions not debate, I said this is free. Also the site you gave is not the one, its PDF.

It's basic fiverr filter. It's doesn't allow you to have ~5x same word in description or ~2x title (I don't remember exact numbers).

Nice gigs, i think SEO ones work the best. (YT Comments, Views, IG followers,...)

But if you succeed with this, you will have to be spending a lot of time online in order to keep up with the orders within the timeline. Just something people trying this out should know.

If you get no sales it either means you made a gig that's highly competitive, or your description/title is poor.

I'm going to advise everyone if you do a review gig, you can't put tripadvisor, google places, yelp, or even amazon reviews in your gig. It's against their TOS and fiverr will just take down your gig.

That really can't be the case, there are so many things you can just re-sell from SEOClerks (a lot of these are listed above). You just buy and sell, that doesn't require any skill at all.

I searched around on how to promote the gigs, I made two gigs but I see there's plenty of the gigs I offer that other people offer too, any tricks to get people on my gig instead of theirs? Or should I look into a different gig? :)

Well, I tried to follow your method for Fiverr. It seems that a number of people are doing this method.

I searched some 1 dollar service at seoclerk and tried to sell it at Fiverr. I copied and pasted the content. I edited some of the content But Fiverr denied my gigs because of a report (Bla bla bla someone blabla . You stole their property bla bla. Just like that).

So after I seeing those denied gigs and after reading why they denied me, I tried to search some keywords related to my denied gig. I saw some gigs with 5 stars and a 3K+ or 2K+ orders that look like a gig from seoclerk. So I thought that many people are now using this method and they're making money from it.

My best option is to try my best to have a unique gig , being not prone to reports. If i can do that.

By the way, it's a clever method. Very business minded ?

Thanks for the method, really appreciated.

I was been trying for 3 months with not really orders but at now I'm receiving up to 2 orders a day that are a net income of 8$/day. Isn't to much but is more than nothing no? In addition my gigs are getting more impresions and click since I get the right keywords.

I only want to say to members that are about to try this method not to give up in the first months... You are not getting orders because your gig isn't well positioned. Try using Keyword Planner provided by Google and add it to your gig keywords.

Hope you can get some cash too.

In social media niche it's going to be hard to keep up with gigs that provide fake traffic. Those usually have tons of clients due to morons looking only at goo.gl clicks and not on the actual behavior of visitor.

Great thread and ideas bro! Just this helped lead me in the right direction. Im trying to start like a social media marketing business. Mainly LOCAL business tho. So I would first offer services of website building/getting their buisness on the internet/and eventually do social media marketing for them. You touched up on this a little bit with SEO driving traffic to websites and instagram, twit, etc. Im wondering if there is a program? a method something. To gather only local citizens and drive traffic to these local businesses? I have a bunch of ideas on how this could work wondering if you could lead me in the right direction for some more detailed info about local SEO/marketing? If not i appreciate your advice!

Just get an ad locally, either on Facebook or in real life. You dont have to spend money on SEO when you'll only target local clients though, thats waste of money.

Id like to write a small review after completing a thorough test on these methods.

I believe is a user wants to truly make money using these methods he or she can, But it really all boils down to how hard you want to work for it. I also want to thank the original poster for compiling these methods for free for all of us.

Again , Thanks for the free methods. Farewell

Fiverr is just a lot of work for hardly any $$. There are better ways out there imo. This coming from someone who spent 1 year doing Fiverr gigs

You’re absolutely correct, this thread has well over 30k views since the start of it. However look at it as an opportunity to stand out, I’ve given you idea, it’s up to you to make it happen.

jesss - *August 31, 2020, 8:20 am*

The problem is that on seoclerks they is no social media selling such as twitter/pinterest/instagram/fb followers. Plus my attempts to sell YT views (the same as backlinks gig) went to trash by fiverr as a violation their rules.
