No not paying for the knowledge it's rather more or less some "Can it be done" kinda things!
But the future project most likely will be paid for. So i wasn't sure where i should post. Sorry if i caused any problems. ?

I'm not sure why people are reluctant to post their project ideas...There are a shed load of good ideas around, It' not the idea that makes somebody money, It's the execution & implementation of that idea, but none the less, Feel free to PM me if you want to ask :)
