Sorry ive not answered yet i had school today ;/

1. Post your facebook on 321 and other teen chat sites, just google for them, then search through your friends for married people.

2. Use lots of pics when you are just starting. Do a really high price like \$100 then they will say like \$30 and get them up to \$50.

3. I use paypal but its up to you.

4. I dont use cam whoring i cant do it :L but i made alot of money selling the same pictures to loads guys last month over \$4500

I've heard that your slaves could track your ip and tell the "authorities"? Is this true? Is it dangerous to cash out/spend your money since they know your email and stuff?

pman369 - January 31, 2011, 11:05 pm

hey is your paypal verified? o-o
was wondering how you do it, you buy greendot right?

It is possible they could get your ip thats why you should use a proxy. No its not dangerous to cash out/spend your money but i would recommend get them to send you a virtual visa so you culd spend the money without verifying your paypal (Feb 1, 2011 12:05 AM)pman369 Wrote: [\[CITE\]](#) hey is your paypal verified? o-o

I live in the UK and i verified mine with my debit card. I send the money from my ewhore paypal to my verified one using a proxy

I have a verified paypal, its going to be a pain to verify a new one? Can i say that i'm 17 and it would be child pornography?

No i wouldn't do that. You would get a knock on the door from the police. You can get guys to send you a virtual visa card. They are like visas but you dont get the real card you get the number and stuff then you can use that on sites like amazon and stuff.

pman369 - February 1, 2011, 9:45 pm

can i have your method step by step?

your method seems easier but harder, say like; what chat you use, how you find out certain info, how you get the people to want to buy the naked pics. Basically a full tutorial on your method. :D
thanks in advance.

IceQube - February 2, 2011, 5:37 am

I wanna E-whore selling pics, just like you ^^

But I have some questions such as

How do I protect myself, seeing from I don't want my IP in the hands of police, paypal, or anyone else.

I know on the online sites I'll simply use a regular Proxy, but on msn or others, how should I do that hten?

I heard people talk about VPN's and I DL'd one but the premium code is expired so this is useless

;p

I reccomend Hotspot Shield if you dont want to buy one. Check out the poxy section for better ones

So hotspot shield would also protect me during being on msn or making transactions on paypal ?

Also, thanks for the quick and good answer.

agahnim1 - February 2, 2011, 1:46 pm

I'd try this but im to paranoid id get caught, I wouldnt know where to send the money they give me which account etc so its secure, wouldnt want my IP getting tracked, i do use VPN though, is there anything else i'd need to make sure I dont get caught for fraud or something haha

I'll help with this one.

:D

Go to UploadNSell.com and upload a .rar of a nude picture pack, and spam the link in chatrooms. \$3 Ea works best.

Also, I'd like to help with questions if you don't mind Compass. :D

?0y?L - February 2, 2011, 4:07 pm

Should I make a new paypal for UploadNSell?

Because I don't think I can.

Would this be dangerous then ?

Some of them do but if you buy one they dont. Ive not got in trouble in a while when im using a VPN

IceQube - February 4, 2011, 12:41 pm

I want to buy one, but the problem is I don't have the cash hence why I'm doing this lol.

But doing 2-3 guys should fix me a decent VPN if I can buy it with Paypal wich I hope I can.

In the meantime I'll just use hotspot shield.

Thanks once more for the very good answer really appreciate it ^^

Ok so I have 5\$ on my whore's PayPal, but the limit for sending is 0\$, I read that many guys here have this problem... but I couldn't find a solution. So, what should I do? Can I pay online with the whore's account instead of sending them to my account?

Hey, I have a few questions too.

1. Is the Tor Project enough, or do I need something like hotspot shield?

2. I don't want to look at nude pictures of people... is there any way I can do this without having to?

3. Has anyone ever attempted to do this with a male profile? Pedo's are creepy people, and I've always wondered... ?

4. So am I understanding correctly that to transfer funds from an unverified to a verified paypal doesn't work? I have a verified... but it's under my name. Can people trace the funds through? Or can you buy stuff online from an unverified paypal account?

2. i used both you said and i still do so sorry.

1. Okay.

2. I'm only doing it to make money. Yes, I'm a guy, but naked pics really just don't appeal to me. I guess I like girls for their personality... not their body. Anyways, back to the story. I found out my parents aren't getting a tax refund this year, and we were really counting on that. So I want to make some money to help them. I've applied for legit jobs, but I've never even gotten a call. So that's my story in short.

3 & 4. Alright man, thanks.

1a: Its legal. just unethical :P

1b: NO! All of them should be +18 years. Otherwise yes then it is a crime if its child porn.

2: Never heard of any (there must be a few i guess)

3: Depends on the effort you put in. Some days really good and somedays \$0.

1: Just to stay safe dude. I think for people in the US its a huge story to try and keep cops of your back. (not sure bout this)

Outside of US you are fine mostly

Ppl also try to stay safe coz they don't want Paypal limited.

1b: LOL! Coz Pedos are stupid!

Its coz us men find it more thrilling to actually talk to a girl that is making your horny and "strips" for you.

3: Good day: meaning you actually earn something lol. (Doesn't happen a lot but if you find a rich Pedo then live is good) ?

Hope I helped

People buy them cause psychologically they're thinking they're speaking to someone real, And it's more of a turn on, Like if you're masturbating, And you think of a hot girl you are good friends with

rather than a porn star, You're most likely to get more pleasure over your friend.

And I think what he means by a good day is like, Good sums from lots of buyers.

I have a question, I have alot of people saying stuff like:

Omg today I E-whored my first victim he wanted me to go visit him so I made him pay for my fuel :D

Wich is all good and well imo.

I'd do it too but I'm afraid of being caught seeing from the fact you are actually scamming that person giving him every right to report you to the police so I don't know if I could do that.

When I sell pics or camshows they are oblivious to the fact I'm not her so they get what they are looking for thus they see no need to report you in any way.

And when you let them pay for the fuel and you don't show up you get fucked over

Is this safe to just do this and take the money ? cause I'm realy not sure :s

Do paypal allow two accounts?

joedeertay - February 18, 2011, 3:58 pm

I made a paypal with a fake email ect. and its unverified. I had \$25 on it, but a guy sent me \$20 last night and the paypal got limited....So does that mean that that money is gone/locked? It says that I'm limited and "didn't receive the last payment(\$20)".. I have a card(my bank account) to verify a account, should I use it on the limited account or should I make a new fake account and verify it with my real cc?..I'm trying to stay as anonymous as possible...any advice on this or other ways than using the paypal nazis?

Any risks?
Or any thing bad can happen?

Thanks.

Thanks. :)

I got 40\$ in my whore account.
I cant tranfer it to my personal account because it got limited and i dont have cc or dd to verify it again. And i live in India so i cant buy those gift cards by which i can verify it.

Is it safe?

What is the illegal thing on selling naked pics on the internet?

If I send the money from my fake paypal to my real paypal - there's nothing illegal I think?

So what's the big problem?

Please tell me if I am totally wrong :D

If I may add a tip :)

I tried getting a giftcard bought for me from giftcards.com but you have to give your "mark" your address for him to enter even with a virtual card, now thats fine as you can use a fake ..however now on giftcards.com it states that when using the card they use avs (address verification service) to make sure the delivery address is the same as the address entered upon purchase.

so instead I get them to buy me an Amazon Gift Card via email, I then sell the code on ebay, so for example a £50 code for £49, I get a clean £49 and someone else far away from me uses the code, if there is any comebacks I'm loong gone :P

as far as my method to get them to pay for an amazon gift card goes I tell them I'll meet them but cant afford the bus/train/plane fair, I have cash but only enough for school/college supplies, They offer to pay for fares as they are horny and will pay anything, I then bring up the idea that if they got me a gift card I could get my supplies on amazon and use my cash to come see him. ta da :)

Load up msn and go into options and select "Audio Video Setup", click past the Mic test and the next part will be selecting your webcam, choose manycam from there, then anything you play will be shown from there on, I suggest using it on a mate or add another fake account first to get used to it and to see if any errors are on the video etc.

I have a paypal card and it follows the same address etc as your actual verified account, so dont do that.

If I was you I would get a generic prepaid visa from a store or websites online, totally unlinked with paypal then just use that to verify after.

Do you think it is neccessary to use a VPN while on your whores account, and real IP while your on real account? (Talking paypal). I have always used my VPN for both and haven't been limited. My real one is verified, my whores one isn't.

Can anyone shed some light on this? Limiting, and all that. Because I hear stories from both ends of the ship and it ends up making no sense...

If you transfer money from your whore's account, to your account, using the same IP, your account will be shut down.

If you go onto your whore's account and your account, from the same IP, your account will be shut down.

I went through 4 accounts and \$500 before I realized my mistake. I simply didn't think a VPN or a Proxy was necessary. I was very wrong.

EDIT: They'll suspect Fraud and shut you down, is the problem. They don't give you the chance to Appeal, as they have a zero tolerance policy.

I've got a few question. (Sorry if they are already asked, I didn't go through the whole thread.)

I've got 2 PayPal Accounts. My Legit, and my 'Fake'. Is this enough? Also , When some1 posts money on my fake, do I need to transfer it directly to my real one? Or what must I do =D.

I'm really new into this, but it seems fun!

It may sounds dumb but this question I ask all the time :

if i don't use any proxy or vpn and i log into msn and talk with that guy then convince him to pay to my fake paypal is there any risk because when I want to transfer money from the fake pp to the real one I will just go to a cyber cafe and do the shit :D

Also OP please pm me your msn (real one not ewhoring one :P) ! Thanks !

1a. How legal is this?

1b. I haven't looked at the pics, but I've gotten the impression that the pics are of children? or

teens? What if you get caught?

2. Have you heard of people getting caught?

3. How much do you make a day?

Imma try to answer a tiny bit of this. If you don't use a proxy or VPN and you log in to MSN, chat up El Pedo, then get money from him, should you have any feds or a tech savvy pedo on your hands, he now has your

1.LOCATION

2.THE PLACE YOU DID THE CHATTING FROM(If you leave your computer on, he can use a handheld tool (My friend interned at our local equivalent of Dateline, just minus the whole footage up on TV part, and one pedo refused to come and they traced him to a Starbucks. After which, they used the CCTVs to get his face and found him a month later.)

Always use a proxy or VPN. Or run the chance of being busted or raped.

Get payments by paypal, create a new fake one using your girly e-mail and always use some proxies so you won't get limited, use : www.open-surf.com (a fast one and reliable, I created my fake paypal with, didn't got limited ;))

Actually, you can kind of do that.

Here's a simulated example of the tactic I am talking about:

(needingasmoney) Need gas money. doing cam shows and selling pics. pm if you wanna help me out :)

It only works at 1 period of time on the site I use, around a 30 minute window full of the desperate pervers willing to pay around 20 bucks for pics.

Good luck, and if you want a couple more tactics, check out my e-Book when it comes out at <https://hackforums.net/showthread.php?tid=1192733> (Apr 9, 2011 08:26 AM)d4rk_m4n™ Wrote: [\[CITE\]](#) it is ok if i use my pp and it verified ?

Oh, forgot about you. I personally never would use my ACTUAL paypal, because should you run into a fed, you can't be traced within 5 seconds... Always use this method:

PAYPAL 1 TAKES PAYMENT AS A DONATION

PAYPAL 2 TAKES DONATION FROM 1 AFTER 2 DAYS

PAYPAL 3 TAKES DONATION FROM 2 AFTER 1 DAY

PAYPAL 4 WITHDRAWS MONEY THEN SPENDS IT ON BESTIALITY MAGS

I'd just use around 4 different canadian proxies. Find them at <http://adf.ly/18iAz> . Just make sure to change the proxy after every register, and use common sense.

Okay so i sort of have the idea,

When whoring/using whores paypal, i always have hotspot shield on, then after i send the moneys and spot being a whore and want to go back to normally, i turn hotspot shield off.

is it a big deal creating 4 paypals and sending them thru each to avoid getting caught or will i be okay with just two? oh and my second paypal is verified with my bank account etc, should i use that? and i do have to spend the money, or can i put in it my bank account and change it into cash? if not how do i spend it? just online :/

I have tried e-whoring loads of time with little success. I have had 1 person ever pay me and he paid for gas money :)

I may have \$10 tomorrow and am working on my "Sugar Daddy" but I doubt this will work out well, as he does not get paid for 6 days.

I was wondering if you had any tips, I always just get bored of talking and end up cutting straight to the fact that I am selling pics without noticing.

Any advice?

Don't just tell them you are selling pictures straight away. If they say they are not paying just write "Ok. Bye then" they usually end up buying them for some reason Hah.
