Thread: | Multicore | Advanced Proxy Tool | Fast | 60.000+ Proxies Per Click | Open Source |

dopepizza - *March 23, 2016, 4:17 pm*

MultiCore, for all your proxy needs.

Have you ever needed a proxy tool that could do anything you need?
Don't you want to pay an absurd amount of money to gather proxies.
Then here is MultiCore, your free alternative.

Features of MultiCore:
[+]Scrapes 60.000 proxies per click!
[+]Gathers Elite proxies with ease.
[+]Inbuilt checker
[+]Inbuilt parser (Parses from specific site input)
[+]Inbuilt scraper (Filters the text you put in to proxies // Even HMA)
[+]SuperFAST, program is multithreaded
[+]Free developer support and updates.
[+]Automatic updates!
[+]Proxy Checker that is Multithreaded!
[+]Show sites that are being scraped off
[+]NEW improved GUI!

All of this comes with MultiCore. It will be updated for free.
This is programmed from scratch and multithreaded for extra fast useage.
MultiCore is a project developed by dopepizza, for the community.
MultiCore, for all your proxy needs.

Your proxy scraper is fantastic. It's light, functional and for the best price out there - Freeeeeee. What else could a noob ask for. Tried it and was surprised how quick I got to 38000 proxies. When I have more time to spend on this project, I will do further testing.
Congratz dopepizza on a fantastic tool. Kudo's to you.

Hey, i was wondering.. When i check to see if the proxies are working, none of them came out working even though it grabbed so many. Hmm could it probably be that the proxies really don't work or if it's a setting that's blocking them from being verified to work? Sorry for the noob question i'm still fairly new to this. Any help would be appreciated!
