I don't understand.
If your eBook teaches how to earn $10 a day. How is it possible you have $600?
I think everyone knows this is a scam and there is no something special at your eBook.
I don't recommend about this eBook for anyone, it's bad. There are many betters.
This member is trying to be rich via your buying. So I suggest you don't buy it.
Perhaps, you need to know some thing about this eBook. Finally, the scammers are caught by someone another.

I'll write this again: I only made around 20 bucks with this method.
I couldn't open a new account on sharecash just to prove to you that it works. I WROTE that you might get 10-50 bucks with this eBook. I never said anything about earning hundereds of dollars.
And how am I supposed to get reach when this ebook is only 4 dollars?

Please... Don't trash sale me thread. Everything I said and wrote can simply counter any statement you got. Like saying that my eBook is bad without even buying it...

I have copy of the book, here is my honest review:

This is a good book for all the beginners in PPD. I wont recommend for pros in PPD to get this but if you are new or stuck at some amount in PPD, this will be really helpful. It is worth its price.

Good luck and sorry for delay
