Thread: [Keylogger without extension .exe](#)

Digital Shakerz - January 31, 2011, 5:59 am

Is there a keylogger, which is visible without the extension .exe?
Or how can I do keylogger without this extension?

RiskyBussines - January 31, 2011, 6:02 am

<http://www.raymond.cc/blog/archives/2009/07/01/run-exe-files-as-jpg-png-gif-or-under-any-different-extension/>

That should help you ;)

Kom - January 31, 2011, 7:22 am

That keeps the extension .exe though - there is no actual way to remove the .exe as it needs to be opened as an exe. or any executable format - like .com

Only way the above would fool someone is if they have extensions hidden.

Digital Shakerz - January 31, 2011, 9:03 am

OK. U r help me.

Thanks?

joshboii1992 - January 31, 2011, 9:12 am

you could put it as .scr pretend its a screenie or .com

Chaos Water - January 31, 2011, 10:21 am

There's no way of removing a .exe from your Keylogger/RAT if you did remove it, then it would corrupt your server and wouldn't execute upon opening.

no1me - January 31, 2011, 1:39 pm

not corrupt just without extension
