Thread: [FREE] Logo Creation, Banners, Photo -retouching/manipulation, Threads Service [FREE]

??? ?l?? f??g???? - *February 18, 2013, 10:33 pm*

Hello guys,

I am a very new member on the Hack Forums but in a very short period of time I have already learned how helpful people are around here.I am already liking this place :D

As per my profession, I work as a freelance graphic designer.My strongest area of expertise is Logo creation, Banners, Photo retouching Photo-Manipulation and Threads.I have been working for quite some time now on different freelance websites.

Even being here for a very short period of time I have been helped in so many ways. So now I feel I really should do something as a way of expression my gratitude to Hack Forums and it's users. So I am offering free Logo Creation/Banner Creation/Photo Retouching/Photo-Manipulation service.I will keep providing the service as long as I can and my job allows me. If you want me to get something done for you just post here and then please send me a PM and I will try to sort things out.

So please feel free to ask me any way I can help you with the services I have mentioned above.Hopefully I will be able to bring 110% satisfaction. Really looking forward to work with you guys.I'll leave a small work related profile below so that up to some sense it would help you to understand me :)

Services Offered : Logo creation, Banners, Photo retouching Photo- Manipulation & Threads.

Tools : Adobe Photoshop CS6, Adobe Lightroom 4.3

Working Style : Improvizing,Experimenting and Bold

Designing motivation: Grunge, Clean, Modern, Retro, Urban

Time Required for completion : Depends on the detail of the work itself and my work !

You all have a good day.Cheers ??

Forum Header Example: Imageshack - 15237121.png
Here's something someone did for me, it's badass and I want to keep the text, but add a little more UMPH to it.
Same dimensions as the example given.

Support Signature:
Be creative, kinda like the forum header same text, just add that UMPH.

Background: Be creative, base it off the rest of the work obviously, but make it stand out.
Dimensions are:
768 x 507

This is for a runescape private server.
I'm really just looking for creativity and something that is eye candy, give it your best shot if you don't like the examples given, I'm sure I'll be suprised.

I would prefer all but the background to be transparent.

What you need: Signature and banner
When you need it by: ASAP :)
More info:

Signature: http://imageshack.us/photo/my-images/715/magikarptimepunknowayou.jpg Would be nice if you could incorporate "Premonitor" at the bottom with some sort of animation to it. Of course taking away the current tags and links on the image. Would be nice as well if you could make it 500 x 200 pixels, no size limit.

Banner: Hoping to have a banner that is similar to this: http://www.hdwpapers.com/walls/the_sopranos_wallpaper_3-wide.jpg but instead of tony soprano, it's a magikarp with shades on if possible. The text saying "The Karpranos" similar to the text in the vender. Instead of family redefined, if you can do "The Legacy Lives On". Dimensons being 650 x 200 pixels, no size limit. I trust in your creativity and talent so good luck :)

Once again thanks again for this :)
