There are a lot of tutorials. Use google or the search button.

Edit: A tutorial on its own won't help you. You'll have to understand the basics as every target is different. The tutorial mentioned explains it very well.

Hello elson!

If you are looking for Tutorials of different Softwares, please visit the [Hacking Tutorials](#) section of HackForums.net.

Then use the SearchFunction and search for what you need, now its "Brutus Tutorial without the quotes of course.

I found a nice one here:

[Brutus Tutorial](#)

Cheers ?

Deox

Well,

Ima write a Tutorial for you then, (starting now).

EDIT:

Finished, right [HERE](#)

Peace ?
