Music is a "now" thing. If you're relevant, you have to get your money while you're HOT. Unfortunately, Bobby is no longer a hot nigga.

Rowdy Rebel is in there along with him. I've got to admit, I was a fan of most of his songs along with Rowdy Rebel, haha! If you guys haven't heard of the song " Computers " with them, it's pretty sick imo. Along with "Living Life". Check them out!
