Thread: Free eLS pentesting course

mrkite - *April 26, 2017, 1:25 am*

Got some leftover invites to eLearnSecurity's Penetration Testing Student training course in the barebone edition for anyone who wants it - code is XRY-XLN.

Just Google how to redeem eLearnSecurity PTS invites and you're set.?

Disclaimer: I'm with eLS, and the Barebone edition includes all reading materials, but none of the videos and labs
