Thread: Glow Userbar

Rufio - *May 21, 2017, 8:41 pm*
This is my first real attempt at a userbar lol.

Constructive criticism please.
Included step by step screenshots.

That's actually really nice, props to you.
Perhaps change the background to be the same as hf's gray. Like swap the gray colors. Not sure.

Madprops for providing step-by-step screenshots, always wanted to see the process of userbar making.
Looks well nice, hopefully there will be more to come!

It's always nice to see how things are created, so I thought I'd put them with this design.

Thanks buddy!

I admire the way the design has come to life with the contrasting colors.

I'd say the flow looks on point. I wouldn't change anything about it

Noisy - *May 27, 2017, 3:28 am*
Very nicely done, Loving the colours and the general idea, great job :)
