Like in the last few months, I haven't been really able to keep up so I was wondering if anyone can recommend me any good series????

Honestly, stop being lazy, find a spring anime chart (which we have posted multiple times in this section) and pick one that interests you. You're only specifications just can't be "good".

You can't even make proper threads. Look at this noob, one sentice thread. God you're terrible. Shinde kudasai.

Pff why do that when others can do my work for me.

Date-A Live is the best spring anime that has aired so far. Just watch it, don't worry, you won't regret it.

Already ended up doing it myself.

I already seen
accel world
sword art online
k-project

^^ those are old anime, I seen all of those already, and btooom.

Code Geass - old and <3 lelouch
Death Note - old and <3 light
Fairy Tail - love natsu
Densetsu no Yuusha no Densetsu
Magi - read the manga after the first episode

But I meant from last season's animes! Not that far old. Either way, I am going to do it myself.

Trying to catch up with the newest seasons atm too. For example
date a live ep 2 - funny love comedy

dansai-bunri-no-crime-edge 1 - really good anime(about cutting

cursed hair)

ginga-kikoutai-majestic-prince - is uh(not sure yet) -> 4 stars

maybe (mecha)

hataraku-maou-sama 1 (funny comedy)

karneval = good anime

Yahari Ore no Seishun Love Come wa Machigatteiru. = guy has a problem talking to women

Photokano 1 = uh maybe(ok story line but seems boring)
haiyore-nyaruko-san-w 1(horrible story harem story, no good plot) - dropping the series

^^ watched all of that last night

Guys, quick confession. Never finished Little Busters. Dropped it at like episode 6 to wait for it to finish airing. Finally done, and now I'm downloadingit :L

Sorry for the offtopicness, but yeah watch little busters. or don't, idc, apparently it's far from the best Key anime. If you want a personalized anime recommendation check out this thread:

Little Busters was pretty bad. Animation was mediocre (damn you J.C. Staff) and it only followed the character routes. A second season has though (surprisingly imo) been announced, and it's supposed to follow Refrain. Really hoping J.C. pick their shit up, 'cause I'm ready for that to turn out one of Key's better series yet.

That's a pretty bold statement considering all of the other shows that are airing ?
