I trade with him 31.52$ from payza for 30$ on paypal.
I talked to him on skype, and he offer me 50$ for my other account
https://hackforums.net/member.php?action=profile&uid=459694 (he changed the name, it was MpApQ and I was l33t)

Today i received a claim on my paypal account for the 80$ he send me. So I talked to him on skype and he blocked me...

I will try to recover my money and my HF account.

So, doesnt deal with this guy!

1. Put his leofile link on a new line
2. Provide proof. He is innocent until proven guilty.
3. You're not allowed to sell accounts anyways.
4. Use the account retrieval form and provide your IP address, and account information.

Wait, you were trying to sell your HF account for $50? What?

WHY DOES NO ONE LISTEN TO ME ABOUT THIS GUY. I post in every thread he makes saying that he's a scammer but people still keep doing deals with him. He uses stolen PayPal and Payza accounts and he buy Hackforums accounts from people to do more scamming.

So you sold him your account for $50?

Can you upload screenshots of your conversation with him?

I dont use my account very much, and 50$ its a good price for me.. Yes I know I shouldnt sell my account.

You need to contact staff and tell them that you sold him your account and see what they can do about it.

His account and Unthethered's accounts both need to get banned. This guy has scammed way too many people and he's just gonna keep doing it.
