Why I need this: I would like this because none of us have any experience with making logos. We also do not have enough money to pay for a logo.

Hello!

Soooo, i've just made a logo for you, and my purpose was to show that is a Minecraft server, so it was based with some of the minecraft characters.

Tell me what you think, and if you like it, drop me a pm to send you vector file for HQ.

LOGO
