Introduction
Hello.

This time I will be reviewing an anime I watched quite a bit ago, it's interresting, but also a romance, it's not the typical, but neither the complete drama, I found it quite good, so today, I will review:
"Ookami-san to shichinin no nakama-tachi"

Genres
Action
Comedy
Romance

Plot
What happens when you have a fobia for staring and is in love with a girl at your school? Will you go all the way and ask her?

Ryoushi will answer this through the story of him and Ookami-san, member of the Otogi bank, a "bank" where people can get any favour but they will stand in deed for the price of the favour, with another favour.

Ryoushi, a silent and shy kid takes his courage, and joins the bank, to be with his beloved Ookami, but what will happen next?

Review

Ookami-san to Shichinin no Nakama-tachi is by far worth watching, the anime is not only the usual love-drama-relationship which I deeply love, but it is also consisting with fights, and different side elements.
Whilst the main character, or one of them, Ookami, might tend to look a bit like Aisaka Taiga from ToraDora! she is not only in appearance, but also following the classical tsundere personality, thus Ookami is higher in appearance for that thing, but more about that longer down.

The plot seems quite usual, right? It's about a boy in love, doing something to be together with the girl, but what makes this special then? Then thing that makes it special is that when we look at different romance-animes, the usual content has to do with either the two being in the same class, or doing club activities together, whilst this is not as so at all, the anime starts in a quite weird way, but it fixes the plot for the start.

Another thing about this anime, the usual scenes are not too good, thus the fight scenes seems

well-thought and "the last battle" scene really hits my style, so I will give an applaus there.

The special thing is as again that this is a good fight/drama, even though there are not too many fights, it's still a good way to start the developement of characters.

There was one particular thing I hated; The start has a little "A long long time ago" - scene, every episode... I would recommend skipping it.

Characters and development:
I will be honest here, the character development starts quite show for such a short anime, I must say that I had no idea of what was going on for starters, but getting into it, you will soonly get ready to see some development, through fights and small clips here and there, making the development slow, but you will soon see the different parts of the characters, and if you look into it, the characters are not too ordinary, it's the usual tsundere-relationship, in fact, there are even uncovered ends, I might believe they were hoping for a season 2.

Okay, I might have been lying, the Ryoushi, the male protagonist, is quite special, actually, I like his personality, he is scophophobic, which means he is afraid of getting stared at, this creates some quite unusual scenes, Ookami, the female protagonist though, has some few special sides, but not much worth mentioning, except her clothes and fighting style which is shown.

Other than that, several side characters are quite special in their own little way, there is a little girl, whom might seem irritating, a maid, a very sexual girl, etc. too many to really go over, since there have been quite a lot there.

Sound and animation
Sounds were the usual, nothing special around that, thus as said about above, it has some amazing fighting scenes, but they are quite rare, the drawing whilst fighting are specifically a great aspect about this anime.

Else than that I have no notes around this subject.

Rating

I would give it a solid 6/10, maybe even 7/10, and if I hadn't seen so much romance 8/10.
Okay, let's say 6.5/10 for a basic rating, should we:
The fighting scenes are great, the characters are interresting and the animation is great at points. actually fantastic.
I would say its a great anime.
