ModderXNick - *October 17, 2013, 6:39 pm*
This is a very original method which will get you many Microsoft points with a huge discount, which will turn into a huge profit with sales. Little investment required. The more investment; the bigger the profit.

Method comes with support: 50$ per copy.

$50? That's a bit steep for a method already known.

Is it something like....

Go to website, use promo code (Or something similar) get it at a lower rate then resell it?

If so, there are TONS of public methods on this.

Those vouches are for your code services. Not for this eBook. Have someone vouch for the eBook.

Legit method. Very easily be profitable. Not something one would think of on their own.

I have received a vouch copy of this eBook and will be reviewing it. I am in no way affiliated with the seller nor do i serve to gain anything from writing this review.

Quality 8/10

All of the information you will need is in this "eBook."

Ease of Use 9/10

It may be hard to gather things together without help from the seller, but it's really basic and anybody can follow it.

Layout 0/0

There is not yet a layout for this eBook. The seller has a great method but has not actually made it into an eBook, so I cannot rate the layout.

Grammar 6/10

Grammar is decent, but it really needs to become an actual file and not just the method.

Originality 8/10

I wouldn't say this is that original, just very clever. It's common sense but it's rare that anybody would know this.

Overall 8/10

Overall the method is good, but it needs to become a fully written eBook in my opinion.

No this is not the method.. The method is way different and the opposite.

Holy.fucking.shit.

I literally just got $105 worth of MSP out of a $15 investment. And when I get the chance I'm getting $60 more worth of these. This would work with Taco Bell, Amazon, Starbucks, and many more depending on how good your Gamestop is. Best method ever, and you can make money back in one day.

Would buy it, way too expensive though.

For what you get out of this, I would pay more for this if I could. This method is fucking brilliant.

Do you buy the codes in store or online? And are you ever going to have a sale on this?

Yes, but you would not need to invest because I provide some extra times with the sale. You can make this back in a day!

Nick is a solid dude. I refuse to believe he would have any reason to scam someone intentionally. He has my full, 100% vouch.

Thanks for the vouch! Still selling this method. Giving a free item with purchase so no investment will be needed!
