I've been depressed all day long, how the fuck can I deal with this?

This is the first time I've made a bet... :/ :(

How can you deal with it?
Don't gamble.

If you can't handle losing $15 then this may not be for you.. especially if it's bummed you out all day. Next time, try something a bit more gratifying. Like maybe a large pepperoni pizza. Can't go wrong with that! ?

gambling is bad for you if you can handle the loss, i lost over 100$ few months ago, and now i never go near it, :) stay as far away as you can.

If you dare to go back once again some advice is don't get greedy ;)

your 15$ would be 27$ now if you just didn't gamble those away, imagine all the good things you could've bought, shame....
