Here are some... warning for spoliers!

Spoiler (Click to View)
Reveal of Itachi's story along with the clip of his end made me tear up when i first saw it.
Johan Liebert from Monster, the entire ending soundtrack makes me feel the chill trough my spine, truly an unique anime and probably one of the best ones i've seen.
Horrible memories, movie grave of the fireflies the ending, wanted to bash the shit out of everything.
Berserk the rape scene in the end of first season :(
