Simple to say its not a mystery that many people fake proof, then get their friends to post it. Lets break down a few things on his thread.

Look at the dates and see how it magically goes Jul, Jun, Today, as if months randomly flip but dates carry on xD

Oh Look he magically fixed it all of a sudden

Lets look at his Vouchers, wait the ones who posted proof are mainly closed HMmmm, seems like the same guy made all the proof for him, missing currency symbols and using only commas no . which can be explained but missing symbols are no no

Currently on my second day and I'm already nearly past the $200 profit mark. Just purchased myself l33t as well thanks to this method. Big vouch from me, I will continue to update. Also I just want to say that support is awesome and valar goes the extra mile to make sure you're doing well.

I've purchased a lot of private methods including Chiefs but they unfortunately usually never deliver and the seller will bs you until you leave them alone. Definitely not the case here, Valar has been helped me setup and get profiting in a single day all through the great mentoring he offers for his epic method. So far at $70 already, I've never really dropped a review but I definitely had to here. Will continue to keep you all updated.

More proof Debugging, Do the maths and youll see whats wrong

Ridiculous, as other ebook sellers out there.
They don't even sell private methods, then only (fake) source of income is by selling their ebook rather than using their actual "private" method.
Look how ridiculous they are.

Almost every single e-book seller here fakes their "proof", it's not a new thing.
