Thread: Garry's Mod Loading Screen [Crystal Load]

As the title says, I'm giving away a couple copies of this loading screen for your Gmod server!

All I ask is that you let me know when your server is up so I can check it out. Enjoy ?

Did you design this or is it a leak?

Looks beautiful though.

It's a leak. I've always used this one on my servers and I love it, however the seller doesn't sell it anymore.

It's pretty nice, you can add music and custom backgrounds to it and everything.

I wouldn't mind hosting a Aussie DarkRP server again :p
