I could do a nice review for you if you would like.

Humour - *February 23, 2014, 7:06 pm*
This is all my honest opinion.

Originality : 10/10
This eBook is very original and have never heard, or seen of this method before!

Each of use : 9/10
The begining takes around 30 minutes to set-up but after that it is easy. Also, this eBook can not get saturated!

Grammar : 9/10
Found a couple mistakes, nothing major.

Overall 10/10
This is a wonderful eBook, I already got around $64 in one day and half. This is not auto-pilot and will require some work, but nothing major. This is well worth it!

I have received a vouch copy of this E-Book and here is my review.

Originality [9.5/10]

This method in this E-Book is quite unique! I haven't seen this method or honestly heard of it, and I'm sure a lot of other people haven't either. This method has a lot of potential in bringing in some earnings.

Ease Of Use [8.5/10]

It's not very difficult to get this set up and going. As long as you can read, follow instructions, and aren't lazy, you should literally have no problem following the guide and setting up this method. It's quite simple and straightforward with the way the instructions are provided in the E-Book.

Layout [9/10]

Pretty good clean cut layout, has table of contents, not too flashy or too plain. No one should have trouble navigating through the E-Book or any trouble with it what so ever. Great layout.

Grammar [9.5/10]

No major grammar errors noticed, just a few little things that could of been fixed but nothing that will cause trouble to reading and following the instructions provided in this E-Book to help you learn / setup the method.

Overall [9/10]

I honestly enjoyed reading this E-Book and learning this method provided in it, it is very unique. It's a great method and has a lot of potential and will definitely bring in some earnings. It's not complicated to set up, no investment involved, very easy details to follow, and overall just a nice method to bring in some money.

Oh and if you need a thread design I suggest SoliderX or Calibur. I'd prefer SoliderX as he replies so fast and does outstanding graphics!

I had a few questions :o

"If I buy the 'Full' plan, will you guide me step by step?

Do I recieve money through paypal?

Do you have any protection against leaking so that my money will be worth?"

Same questions, looking forward to purchasing this.

also how long does it take to get paid out? Is it monthly or anytime you want?

And is the 15% discount still applied?

Is that fake proof? I've never seen paypal make the dates look like that.
And the income seems a bit off. $46.64? <- That's not natural.

Just wondering, I haven't been up to date with paypal. I'll be waiting for more vouches/proof. Good luck with sales!

Fake proof? How is $46.64 off? Also if your country does dates differently that could be the issue. I live in the US so that's how we write dates ?

Yeah, I live in the US too. Must been mistaken, but I thought Paypal did Date Month Year... for example, 2 May 2012. I'll keep on waiting for vouches/proofs.

The fact that 46 and 64 are similar may be a coincidence.

Haven't seen a bad vouch yet though, I'll keep on waiting.

Oh I never realized that. I have so much money in and out of my PP it's semi-hard to track. I have a few payments that I earn specifically through a method in a notepad though. Sorry for the confusion! ?
