Thread: [BRAND NAME REMOVED] traffic slow likes?

julsngbatac - *September 5, 2020, 5:31 pm*
normally [BRAND NAME REMOVED] traffics in big cities you can get 99+likes within 7 mins of boost
rn having issues not even getting 99+ likes in 30 mins of boost
normally im making 15 accounts 700-1000 adds in my snap per day

He means your shadow banned.
[BRAND NAME REMOVED] not only bans the accounts but they often shadow ban the devices you use/ip.

i understand . im doing [BRAND NAME REMOVED] for a year getting 1k -2500 per day . i know the basics .

but its not about the ip and the device cause i change the chrome and ip everytime

hopefully its just an outage

then i guess there is no need in helping you if you are "doing it for a year"

figure it out by yourself, but il leav a tip:

virtual machine.

There are only so many variables one can change.. device ID, IP, photos, bio etc. using an emulator offers no exclusive variables that an android phone you root/ hard reset, and make new accounts on does not. The fact you used blue stacks has nothing to do with it
