Thread: Needing a FTP server source in VB.net

IMAGINARY666 - *May 2, 2014, 2:10 pm*
https://www.planet-source-code.com/vb/scripts/ShowCode.asp?txtCodeId=1885&lngWId=10

^ This shit doesn't work... It lists files and then the connection just dies...And i didn't find anything on the internet...Maybe i don't know to use google (LOL)... Can you help me please?

You "should" easily translate this from C# to VB.

FTP servers shouldn't be written in .NET...

Well I can't give you the source but I can give you a link for an FTP server library I've made with some example code.

If you can't translate that code chances are you don't need the source itself.
