You have not completed the registration yet. You either need to confirm your email address or when you sign back in to the site it asks for more information which you need to fill out.

Ill add you anyway to save your place seeing as you have at least started but if you don't finish the registration ill have to take you out of it.

Thankyou.

Im not just going to give \$5 away. its going to whoever wins this contest. I only get the money from people who live in the US or in the UK so if i let people form outside of those countries join then i wont even get the \$5 to give to the winner.

?lu? - February 5, 2011, 7:12 pm
