Thread: [NL]JUST GOT RAIDED AS WELL - BLACKSHADES

Europe - *May 13, 2014, 1:21 pm*

Hey guys, I was browsing through the forum today.
And I came by this thread
https://hackforums.net/showthread.php?tid=4226669
So I read it without really thinking about it.

So now guess what happened 3 hours ago til just right now.
around 7 people came to my door.
Asked me to stop what i was doing and sit on my couch.
I wasn't allowed to talk or ask questions.

After a while they said they were from cybercrime police.
I do alot of shady stuff, but I had no idea how they could come at my door.

So yeah, PC, phone, every electronics taken away.

Be ready guys.
-Europe

I'm from the Netherlands btw.

VirusTotal - *May 13, 2014, 1:22 pm*

Edit the thread dude :)

Btw sorry for you.

?Chief Keef. - *May 13, 2014, 1:22 pm*

Wow damn. Dude does this count for people who got a free copy of blackshades?

MissChiff - *May 13, 2014, 1:24 pm*

I feel bad for everyone with BlackShades. They're all getting screwed over.

Mitchell_H - *May 13, 2014, 1:24 pm*

This is absolutely crazy, I'm surprised people that have used Blackshades haven't already gotten rid of their computers, or atleast do something to prepare themselves.

They're probably going to visit the majority of the customers, so if someone's reading this and you had Blackshades, cover your tracks and goodluck to you.

OP, finish your story though and show us some proof i.e search warrant.

Wow, I see so many posts now about this. never seen a raid this big though

Asdfghjkl12 - *May 13, 2014, 1:34 pm*
Man this sucks, are you like Razor german? And german police?

Europe - *May 13, 2014, 1:36 pm*
Nope, I'm from the netherlands.
But I've done alot with Razor himself.
So they probably already found out that as well.
I have Razorcrypter, im the owner of EuroJDB.
The whole shit has been fucked up.

We are fucked

I wonder whats going to happen in north america.

ladysage - *May 13, 2014, 1:42 pm*
Back in the day when I was "bad" I dab'd with rats but I always avoided blackshades because it was one of the shiftiest things around. I really hope everyone has that 64 char Complex TrueCrypt set up. Then again I never used it for "spying" like most of the individuals so I would be in the clear, Had it to remotely use my computers and to make sure no predators were after my younger sisters.

Side Note: Good god, While I was writing this I heard a knock on the downstairs door and my face went completely white. No FBI though just my mom.

420 Blaze It - *May 13, 2014, 1:42 pm*
I think they will come to every country. Phew, good I didn't buy it after the site was being hacked/ddosed.

That's just insane, the worst part is that they are targeting the wrong people. Most of Blackshades customers are underage script kiddies, why would they even bother?!

The-One - *May 14, 2014, 6:48 am*
Can you post a picture of the document they gave everyone? I couldn't read the others (blurry and

vague languages), I'm Dutch too so its easier to read for me that way.
