Oh man, how I wished it was an extension to where they left off in DBZ Super. Nevertheless, the trailer looks promising.

I feel you. Fell asleep watching the DBS: Broly movie few years back. Might not ever get into the Super series.

Has anybody watched it yet? I've been waiting to see a dubbed copy get leaked but so far nothing. Might just go catch it in theaters tomorrow.

I saw the trailer and it looked very different from the other dragon ball movies. Even the animation looks upgraded.
