Goodjob, you showed how to make it less obvious. Usually scammers just go full in with phishing links but this method has some nice touch added. Thank you

Bobby Shmurda™ - *January 14, 2024, 5:18 am*
Haven't touched phishing in a minute but I'm definitely due to run a few tests with this.

Thanks..this is like DNS attack and phishin for the creds. Nothing new about it..but i guess its a good walk thru for newbs. This would work for anything really as long as you can fool the target into thinking the page is real.

Thanks
