Thread: Don't buy "APPLE EXPLOIT" by The Don Killuminati false refunds! [UID=1535763]

OwnerORAdminPlease - *July 1, 2014, 6:09 am*
I was reading this exploit and I saw in the ToS, you have to have used the method for 45 days before getting a refund, yet that is the paypal refund time... why would you try a method for 45 days, surely 2 days is even enough....

Took the words right out of my mouth, Ebook = free money, I mean you would you hand some random guy in the street $20 but your willing to buy something that gets you nothing :) I cannot explain it

eBooks sold here on HF are all shit. I haven't stumbled into one that has a truly original method on it. I don't even buy them. I wait for them to be leaked on other forums. lol. You won't believe the stuff some eBook "writers" put in their products. Some of it is even C&P'd off of other sites/eBooks. If you're going to spend on something like an eBook (especially one sold here), you might as well give your money to a random stranger - that way, you won't feel tricked out of $20.

No offense eBook sellers.

This is why I've never purchased an ebook over HF. The LARGE majority of them are rip offs and not original or profitable what so ever. If you want to make money learn a skill such as coding, networking, or even find your own niche so you can start running your own services and sales.

I've bought 3 e-books here on HF, and reviewed many more.
The 3 books I bought actually worked. Maybe I was lucky, maybe I was smart.

Trust me, you were more lucky than smart.

Out of the 2 e-books i've bought both work.
I believe it's more a matter of choice.

I mean if a staff member vouches I suppose it's a legit thing.(not saying it happened but it'd be logic.) If it's a bunch of new normals/l33ts/ub3rs vouching you might wanna scan through a bunch of em.

I can honestly say those 2 e-books easily made me a couple 100 bucks.

How about we all agree you're both retarded, and the smart (well, not retarded) kids of HF finally learn not to buy eBooks.

it's sneaky and he's done the right thing to show the possible consequences of one of your terms of service to potential buyers
