Hey guys, I have a nice method for you how to earn money when youre sleeping ;) We are using hitleap and fast2earn. You can just earn money while your gaming/sleeping/doing your work.

In 9 easy steps.

1. Go to fast2earn.com and make a account.
2. Then you will see a refferal link. copy it you will later need this.
3. Go to hitleap.com and just make a account and download the viewer.
4. Then just go to My websites and enter your refferal link.
5. Then do it for 10 seconds, and dublicate the website link 3 times (click on the boost hits icon)
6. Then go to traffic exchange and click on start.
7. Then youre done ;) Keep the progam open.
8. Refresh your fast2earn page every 30 minutes. And look your balance getting up and up.
9. When you have 16.00 you can cashout. And collect your money ;)

(If you have RDP's I think you can open hitleap (with a different account) And just put there your refferal link in too so you can get 2x more views.

Does anyone think they pay? I don't think they do because the latest withdrawal dates are so scattered far apart.

Since there is posts providing proof that they're fake.

OP: Post cash-out proof to prove that they cashout

?Dexter - *July 14, 2014, 7:31 am*
Easy to set up and already have 26 cents after 25 minutes. Keep us updated on whether or not you get the money after checking out, thanks for the share OP

CyberAlien - *July 14, 2014, 9:26 am*
This is fake, because on Payment Proof site they have even PayPal but on cashout tab there isn't PayPal payment ?

Ownc0d3r - *July 14, 2014, 9:29 am*

AceVoid - *July 14, 2014, 12:08 pm*
Sorry OP but this will not work. fast2earn does not cash out. There are a whole lot of threads of people complaining about fast2earn.com.

According to my experience, fast2earn doesn't allow you to reach the minimum required amt for check out. I tried many time with no use...But Hitleap is 100% legit.
