EU finance ministers agree on path to limit digital euro holdings

EU finance ministers agreed to impose holding limits on the digital euro, reaching consensus on procedures for setting caps during the latest Eurogroup meeting.

uhhh.... Capitalism is screaming HELLO?

This is a tough one to stomach. I'm sure they must have reasons, but it kind of goes against the grain of capitalism to put a cap on anything monetary. Obviously it's not a cap on money overall, but I'll have to really look into this to figure out how annoying it is haha
