Thread: [TUT] How to Render using Photoshop [TUT]

masterftp - *October 27, 2010, 6:46 am*
Hi this is masterftp aka jairathnem,

This is a detailed tutorial on how to render using photoshop.
Spoiler (Click to View)
[img]http://www.ploader.net/files/96db06bcb37149c12b1d8db71e951371.png[/img]

Comments and suggestion always welcome.?
if u need any help in this feel free to ask me
?

eggystyle - *October 27, 2010, 9:07 am*
nice, thank you alot!
good job!

Whoa this a easier way to render

masterftp - *January 13, 2011, 11:44 pm*
felt like in this thread!

Justice' - *January 14, 2011, 9:36 am*
could you upload the outcoming

yea55 - *January 14, 2011, 11:32 am*
i've spent ages just rubbing out my render against the background...
seems i've been getting it wrong...cheers mate

This seems so time consuming though. How long does it usually take?

masterftp - *January 15, 2011, 6:53 am*
it takes me like 4-5 mins for a normal render!
