?hack_addicted.pt SQLi Scanner ?
--Status:[online (NEVER down again)]--

I HIGHLY recommend you to use this SQLi Scanner, and not .exe tools!
Side Note: Better dork = more results! Keep that in mind!
Note: This scanner is coded by r3m1ck, a very famous Indonesian Coder, i just modded it and uploaded it.

Works pretty good and isn't too slow. Good Job!

Hey buddy. I would recommend getting rid of some of your threads. If this is your final one it would be best if you delete the rest. Hackforums takes duplicate threads seriously. Great tool BTW!! I have used it and loved it.

why can't i use
inurl:php?id= site=.co.uk ?

Grimskulls - *November 30, 2010, 11:33 am*
Possible if you could post the full source for others to use, that way not everyone is using the script from your servers.

I'd like to have it for personal use on my own domain + server.

If you want a sqli scanner always online, take the source code (available) and put in one of your server (or XAMP/MAMP/LAMP). It works better and you can modify some things.
