The eBook explains everything well and you can lowball the store for sure. Just so you guys know this means that you aren't getting things for free, but A LOT cheaper than the basic price.

FAQ
What regions will this work on?
I have only tested both methods on a US account many times.

How long will the basic edition take to receive a product?
After reading the ebook, the method takes 5 minutes to receive your heavily discounted gametime/account services.

How long will the diamond edition take to receive a product?
The diamond edition takes more time, usually about a week for everything to click. But the rewards are more than that of the basic edition, as you can resell the codes.

What products can I receive from the Basic Edition?
30/90/180 day game time
All account services (excluding guild services)

What products can I receive from the Diamond Edition?
Basic edition products+
Pets and Mounts (exluding Warforged Nightmare)

Do these methods require an investment? (apart from money to purchase gametime/services)
The diamond edition requires an investment- just like any store/venture would require. The basic edition does not.
