Sorry, I didn't see your question I must of looked over it.. I would of answered you if you added me on Skype.

I don't guarantee any amount that you will earn personally but lots of students of my class have went on to earn $5000-$10,000 monthly or more depending on the effort they had after gaining the knowledge. I do guarantee you will start earning to your goal though, if you want $50 a day you will get that, if you want $500 a day, you will get that.. Depends on what you want specifically. Here are just a snippet of some vouches from happy customers from my services!

I have a gang of people that have became successful with my classes, check the vouches in this thread and on my other previous threads on HF such as https://hackforums.net/showthread.php?tid=3611279 where you can find an array of vouches, activity, etc. I also have huge threads all over other forums, some I won't name but such as the FileIce PPD forums where I have a 100+ page thread with tons of vouches..

You can see some successes here :

I haven't got my lesson yet since I'm letting him rest for a bit with all his classes. Person wise I can say that Stacksamilli is amazing and very friendly!. Can't wait for him to be ready for my lesson :D

EDIT:
Got my lesson :).

Review:

Quality:
This on 1 on 1 Class is very HQ, all you need to start earning is follow his words that will be explained slowly and very detailed. Starting Informatin/Pages are provided by StacksAMillionaire Himself and they are insane and can be used for base template for your future Niches.

Dificulty:
As someone that did a bit of PPD in the past I found it easy to understand what he was talking about and even someone that is inexperient with the situation would be able to do it no problem.

Service to Price:
In my opinion the service to is to good for the price offered, YOu have such a good base that you can get your money back in 1day of full work no joke.
I'll soon post my Earning like in a week since I'm a bit busy this week :P.

After Lesson:

Not only do you have the lesson but you will also have support from him all over your PPD Carrier, have a question just PM him and get your answer ^^ he has shown a lot of interest to answer any questions even after the lesson.

StacksAMillionaire himself:
StacksAMillionaire is a great guy, before the lesson we talked for days, some life crap and so on. He's very nice and enjoyable to talk to :).

I never did PPD before and now I am really motivated into putting time into it as I now have the ressources to make good money.
StacksAMilli is extremely friendly and offers support (basically you have support forever after you purchase this).
I would recommend this class to anyone looking to make money online. You don't even have to invest much.
Again, you're getting mentored from a guy that have made over $200K earnings from PPD online for only $250.

I am working on everything right now and will update this thread with my earnings for sure!!

Anybody knows what happened with Stacks?

I paid him last week for a class, and before that he was always present to talk.
But after sent the money we scheduled 2 classes, been in front of the computer all day, i canceled plans to my friends and family(i have a life) and still never answered me on Skype or even give me a apologize about what happened or when he will give me the class.

He said that will locked a class and need to pay him to know i'm "serious person and customer", but this looks very unprofessional.

Don't think he is a scammer, but i paid with AGC and i'm worrying now about this.

Just my experience till now.

But he's just always "Away", not blocked or deleted me, so i hope it's just having some problems and not scammed me for "few bucks", considering he's is a professional PPD earner.

We were scheduled almost 2 weeks ago and I was really accommodating since he wasn't feeling well the first weekend. However it seems like its hard to get a lesson since he wakes up at like 5 AM and doesnt respond to messages after noon time.

StacksAMillionaire - *February 12, 2015, 3:20 am*

Sorry guys, been extremely busy lately and my computer was having some issues that I have now resolved; My computer was overheating and on any type of load was shutting down so I had to go get a good CPU cooler for it.. Now I got it and my PC is good and running smooth and cool with no issues.

I have been trying to get classes done, but the issue we have at hand right now is that I have so many people who purchased and scheduled around the same time that we have to figure out a list of #1, #2, #3, #4 people in line to get class and do a quality, unique, and epic class with each person.. If everyone can understand each-others position and that everyone deserves a great quality class then we can figure this out and get everyone there lesson in a timely manner.

For now I'm thinking I will PAUSE any further sales / schedules to take care of these current buyers, but then will open & re-continue to allow new customers soon after completely finish with the current buyers.. (I will not close the thread temporarily or anything, just let it be known in this message that for now till next week or so I can't take any more schedules or orders for the lessons as I need to complete classes with a bunch of people already)

So what we need to figure out is a #'d schedule of people to get the class done, I believe Visualize is #1 and will try and get him on his way and happy today (But he gets on at 5 PM, so if you can get on before him then we will move him back at the sole cost of getting other classes out of the way and freeing that up.) I will not sacrifice on quality of the classes at all so I will not try and rush each class we just need to find a sensible way to get the lessons done in a scheduled timely manner and everyone purchased at the same time and the times are just overlapping with the classes, and with human able-ness and being realistic for completing everything in a day (Day = 24 hours) Please be patient and we you will be getting your class / lesson soon.. Message me on Skype and we can talk further and get your class completed..

After completing classes with these individuals I will be opening sales / scheduling back up, for now no new more scheduling till finish with them, will be done in a week or so and open back up.. (Will not close the thread, just letting it be known)

?

Visualize - *February 12, 2015, 6:27 am*

You said that he messaged you today, so I guess you can work something out with him, or I'm mistaken ?

Stacks and I were able to do the class today and he spent 3 hours with me going through each step and it was packed with information. Although there were time constraints (especially on my side because I have school), this was definitely worth the wait and the price. He is a great teacher and is very knowledgeable about the business. One of the best parts is he gives you a starting package so you are not left alone in your journey in PPD. He gives you what you need to start, pretty much all the resources and very helpful tips to incorporate so you can have a better conversion rate which translates to better earnings.

A lot of this is hard work though, but once you get through the initial phase, it is VERY good money.
If you are looking for something stable then this is something you might want to invest in. It isn't a one time thing, as Stacks is there for you when you have questions and its more like a mentor ship.
You may think $250 is a lot, but this isn't a shitty eBook, this is the real deal

Will try to arrange another date.
From now Friday to next 2 weeks i will give him time to do it.

If not, i will need to ask for a refund cause this is looking like a joke, as $250 were pennies for their customers.

I am really pissed off with you stacks, before the class, you beg me to pay you, you said u will keep up with the time for class. Then he could not do class when my time is 2pm, and his time will be at 1am. I was waiting for him whole night.....until i hurt my shoulder blade, because of him my life is ruined. Now he just relax on skype, when he came online, he said he just wake up, but where is my

fucking class, did u ever try to schedule it?

still havent got my class purchased on january 29, stacks pls refund me. I just find out thread about you in cpaelites

so what if you just wake up, get up freshed and do the damn class..... things is not easy, i told you i am jobless, i was hoping to get your class so I can do something about it, you know I don't talk much on skype, I see like you don't give fucks about my class, or want to schedule something, tell me the time I will be there, day or night, now its 2.05am, I know, there is 1pm , and you said afternoon time you will be energized and give epic class, then what happen? look stacks alot of people are waiting for their class, be professional and schedule everyone's class.

StacksAMillionaire - *February 22, 2015, 1:03 pm*
Yeah if you want the class you should probably message me on Skype now.. If you've already paid and are scheduled then your best bet is to get on Skype and take the class with me.. I'm not receiving Skype messages from any of you consistently, so how are you going to receive the class?

Didn't you guys see my above post where I stated we have A HIGH INFLUX OF BUYERS ALL WANTING THERE CLASS AT THE SAME TIME... So we must get each class done and everyone must wait there turn..

It takes about a whole days energy to do one class for one person, so just be patient.. (Messaging me on Skype, the place where the class is, is probably your best bet to receive the class as rapidly as possible, not posting here..)

Whoever messages me on Skype today will receive a class, then they will be good to go!

How about this, we will order classes like this...

First people to post 1, 2, 3, 4, 5, etc. after this post will be ordered in that number for the classes.

So if you are person to first post, 1 after this you will be 1st to receive class next, if you are first to post 2, you will be 2nd to receive the class next, etc. So that we can have order and organization for who is supposed to be next!

- You have until Friday to work on my lesson, and I will be more and more gentle and nice with you, and I will wake up early for you so it will be somehow late and you already sleep at a late as you wake up at 1 and 2 P.M.

- If I didn't have a class on Friday, I will open a scam report and if anyone want to join me, I most welcome you.

The link of this post will be sent your Skype and in a PM.

Edit : Before opening the scam report, I will ask for a refund, if you refused or something like that, I will open the scam report after 48 hours, I think I'm more than fair with you.

I will keep this updated for all people and even for you, Stacks.

Yes, he ask for vouches in exchange of free class, he seem don't care who already paid him. He did the same thing with me, he said he ordered pizza and went to eat, then I waited, he said he fall asleep, then he said he want to shower next, then at the last moment, my internet went limited, I could not get back to him, since then few days no reply. Stacks, I ask you last time, what you're up to ? I don't care if you want to scam around or do whatever you want, I don't care who is the first to get your class, or whatever, I want to ask you upfront, you want to give me the class I paid for or not? Just tell me yes or no, simple, you seem not interested to give me class. Just tell, take my money, god bless you man. And I will hustle my own from now on. BYE

I negged you because you said something I didn't like and you PM'd me saying that you were buying the class and to remove the -3 because you are going to be a customer; I agreed and did so..

When a day passed and you didn't purchase, I PM'd you and said 'Why did I change my rep if you aren't buying the class or +1'ing me or anything, I'm going to change it back' in which I did because I felt like you deserved a negative instead of a positive not because of any other reasons. ?
