Hello there!

I wanted to share a little song with this section:

I'm sorry if my posting etiquette seems bizarre, as I don't normally venture out beyond a specific section.

But I think this a really good song for those times when you are in a state of deep thought, or working on art of some kind.

Or in my case, it's just an amazing song to relax to after a hard day.

Well I hope you enjoyed it as much as I have

See ya ?

Nujabes is a tremendously talented artist, it's really a shame that he left us before his time.

Modal Soul is easily one of the best albums of the decade too, if you haven't listened to all of his work then you're severely missing out.

I honestly can't say I have sadly.

But I definitively plan to now that I have a name to go off of!

Listen to Tak-Ku too.

His Days for Dilla and Days for Nujabes are great.

He produces things to pretty much sound like them in their honor.

Both two great ones that left too early.
