Thread: Escape [My First Game] [Source]

Shoot - *January 13, 2015, 8:18 pm*

Introduction
This game is a strategy based game created with pictures boxes. You have to find your way out of the room, its easy but not as easy as it looks, maybe you guys could build it better (More stable, with better features)

Hmm... By looking at the source, this seems like an interesting game.
It's pretty simple, but at least it's not something that we see on HF everyday.

Nice game man. I really enjoyed it. Keep it up!

ElementalTree - *January 14, 2015, 4:34 am*

Wow this must have taken hours to create, just look at all that advanced code! And you're doing this with pictureboxes? That's amazing!

But seriously though, I'd say you're stupid. This just shows everyone how bad you really are, you went from "creating" a theme etc to this.

hey hey, at least he stopped leeching. Doesn't change the fact he will forever be labeled a skid here and anyone who knows his reputation will inspect his code to see if it was stolen or not...

I am not going to provide one because the source is released.After all the abuse you got, you're back releasing your own projects xD good job man, do you plan on making any updates/changes to this yourself?

nathan72389 - *January 14, 2015, 6:28 am*

do i win?

Dredd - *January 14, 2015, 6:37 am*
Oh gawd I hacked it.

Spoiler (Click to View)
Jk you just need to change it from tile to Stretch Image or lock the size of the form.

?
