Thread: [Whaling Policy](#)

Omniscient - February 10, 2011, 4:47 pm

It's out of nowhere become a hot topic that I'm continually asked about.

1. We don't allow dumps. If the whaling topic breaks that policy then it will be dealt with.
2. We don't allow phishing topics. If the whaling topic breaks that policy then it will be dealt with.
3. We don't allow RS account trading buying or selling. I've added "whaling" to the actual wording of the rule. If a topic breaks that rule it will be dealt with.

We don't need a specific rule against whaling considering current policies cover many areas we don't allow here.

NaDe - February 10, 2011, 4:48 pm

Maybe this will stop the mass amount of black hat threads for phishing and marketing Runescape accounts.

iolaka - February 10, 2011, 4:49 pm

Finally a thread about this. ?

Excalibur - February 10, 2011, 4:49 pm

this wont stop the threads, but now if i see something breaking the rules, i'll inform them of this one

Emporer - February 10, 2011, 4:49 pm

Thanks for clarifying this issue.

Football Predictor - February 10, 2011, 4:53 pm

Omniscient thanks for telling us this appreciate it mate

???G? - February 10, 2011, 4:57 pm

This will clear things out for people who are too lazy to read the Help Documents and who directly make a new thread in the Rules section, thanks for this.

D I G N I T Y ™ - February 10, 2011, 4:59 pm

This will stop all the RS trading now. Good!

We don't allow RS accounts trading buying or selling.

Thank you for clarifying this.

Woe Is Me - February 10, 2011, 5:06 pm

Thanks Omni I was tired of seeing those threads.

I never saw the property of a body that causes it to have weight in a gravitational field of black hat threads for phishing and marketing runescape accounts. Maybe you meant massive?

Anyway; I don't understand. Are the whaling threads still allowed?

Gold - February 10, 2011, 5:16 pm

I see omniscient, whaling is quite annoying.

P.s. Do you intend to un-limit me, soon or ever?

It's been 6 months, can I have a break.

Omniscient - February 10, 2011, 5:27 pm

And people still don't get it. Even when I make it clear. Some of you are morons. Stop interpreting and just read it. Take the policies literally because that's how they are written. They are not open to interpretation by members.

No dumps, no phishing, and no buying,selling,trading,whaling of RS accounts.

Is that fucking so hard?

Ninjury - February 10, 2011, 5:31 pm

Thank god you finally clarified this. Now hopefully the bullshit threads will stop.

I am fool - February 10, 2011, 5:33 pm

I never knew It would be so popular, lol.

Tate - February 10, 2011, 5:34 pm

This may appear off topic but this seems to be an appropriate time to ask. Is the discussion of hacking runescape accounts still allowed?

I would defiantly have to say no.

I don't believe anything RS account related is allowed.

I would assume so, but about a year ago the RuneScape forum here was removed and all runescape discussion was halted, so I'm inquiring about it again now that it's suddenly sparked activity again with no reopening of a section.

PS. Not that it matters all too much, but it's "definitely", not "defiantly". You just rebelliously told me "no", according to your wording. (Feb 10, 2011 05:59 PM)D I G N I T Y ™ Wrote: [\[CITE\]](#) This will stop all the RS trading now. Good!

I think the rule about trading RS accounts already stopped the trade of RS accounts.

Agent Shark - February 10, 2011, 6:38 pm

I see why Whaling is not completely not allowed here. There are many white hat purposes that can be used from it.

It's allowed, only the things not allowed are not allowed even if they are associated with whaling. Omni was trying to say that although Whaling is allowed, don't do the followings.

Lith - February 10, 2011, 6:43 pm

I rather have it disallowed because of major retardation from it.

Yes! Thank you! I hated those whaling threads.

cybr - February 10, 2011, 6:51 pm

Whaling sounds like either whale calls, or whale fishing.

Snap back - February 10, 2011, 6:56 pm

Do you mean whales? Like in the ocean?

Lith - February 10, 2011, 7:36 pm

Whaling as in RuneScape account mooching.

H??????a X™ - February 10, 2011, 8:15 pm

Thank you for clarifying this. I was personally tired of seeing all those threads claiming one thing or another. :)

Chris.. - February 11, 2011, 4:35 am

About time to be honest that's all the computer gaming section is full of.

Amazing - February 11, 2011, 5:09 am

I'm glad this was finally announced, the entire computer gaming board was about whaling.

Thanks for keeping an end to RS crap.

Punisher - February 11, 2011, 1:22 pm

Whales are an endangered species. We need to stop people from whaling!

Fallenour - February 11, 2011, 3:12 pm

im confused omni, I thought I read a thread less than 2 days ago saying from you that whaling was ok, did something happen? o.O

Grammar Rays - February 11, 2011, 3:33 pm

Whaling? I don't understand what you are referring too? The hunting of whales? LOL, I am pretty confused right now.

Qwazz - February 11, 2011, 3:50 pm

Makes perfect sense, it's all stealing of accounts anyways just using a different word for it.

Uchiha majordave - February 11, 2011, 4:09 pm

I think it's great. It's not very nice to steal others accounts.

All the threads were getting annoying.

Imperialism23 - February 13, 2011, 10:04 am

Glad this has been specified, I've been wondering HF's actual policy on whaling.

Trihunter3 - February 13, 2011, 10:11 am

quick question, What about Videos Explaining how to whale key loggers, its neither A. dumping, B. a phiser, Or c. about (The name that shud not be said)

Ive seen acouple of vids about it posted in gamer section.

I am fool - March 19, 2011, 2:01 pm

Now lets say I whale a gmail, and post it's insides, maybe block a few things.

Would that catch me a warning? I wouldn't be dumping or anything of the sort.

mothh - March 19, 2011, 2:15 pm

Can someone please tell me what whaling has to do with Hackforums?

CoNsEqUeNcE - March 19, 2011, 2:18 pm

What happened to hackforums? Phishing used to be an ok topic to talk about. Now, that it's big, the FBI is watching us..it's gone. Phishing is hacking. I wish we could make tutorials..with

disclaimers like, this is to grab info on anyone trying to hack your site.. or for educational purposes only.

Revolution!

Phishing isn't hacking. Phishing is cracking. But that's beside the point, Omni is just covering this sites ass. A site can't get this big and still allow all that, Omni would get in a lot of shit for it. He's probably following his lawyer's advice as well.

Also, I'm bad with dates, but what do you mean what happened to HF? I'm fair sure blackhat stuff started going byebye a little after I joined, or maybe a little before, so I'm sure a lot was gone by the time you joined lol.

It's closer to cracking than it is to hacking. Hacking has nothing to do with illegally gaining access to anything.
