Thread: [20th victim :D](#)

.Astro - February 10, 2011, 5:52 pm

Finally got my 20th victim on my logger. His account his crap, but it's fine. I got access to his Facebook account, along with his twitter. 1036 followers :D!

17/20 have Runescape accounts worth keeping, and the others are all about socializing and a bit of Runescape but it's all good. And the best part is that I got one with a santa hat + 2 phats + a sythe + 5mil. The stats are meh. There are some 99's but not ones that I was looking for. Either way win win for me <3.

I'm barely getting my first one :D

Any good accounts he has? The one with a leet Runescape account has his default language as something else so I'll have to translate that.

2 phats?

pic or it didn't happen.

.Astro - February 10, 2011, 6:01 pm

Well right now it's only getting screenshots of him fishing.

I only think he has 2 phats cause he said so. Probably lies now unless I can get him when he stops botting and enters his bank or something.

Warning - Big Image.

Haha, great work man, you have some impressive features!

.Astro - February 10, 2011, 8:00 pm

Actually, nope. I just made sure it was on start up, FUD'ed and sent screen shots. No disables or anything so they won't catch any suspicion.

I just need to remember what server I used to get these so I know which builder works the best.

Addictionz - February 10, 2011, 8:04 pm

If you have a tutorial on how to do what your doing can you pm me it? Thanks bro.

.Astro - February 10, 2011, 9:08 pm

I use a paid logger that's already FUD, so I just have them run the server, the unbinded version.

I make my own fake programs, but that's all I do except for spreading on youtube. I don't use any boosting services etc either.
