Thread: Who's good with vbnet?

Sw0rd - *March 14, 2015, 6:31 am*

Hey,

Stuck in the middle of a project and can't work out how to do the final few functions.

It's not hard to someone who's fluent with vb net.

Pm if you can help pls :)

Thanks

What is the project about/what is it supposed to do/what does it do that it mustn't do/show some code.

You haven't described in anyway what needs to be done? How do we know if we could help? ?

Because if you're fluent with vb you'll understand?

Pm me and I will explain

CodeAssassin - *March 14, 2015, 9:06 am*

Most of us here in the VB.NET section are coders, show us your code problem for help. We can't just guess your functions etc.....

Sw0rd - *March 14, 2015, 9:11 am*

Pm me and you can look over team viewer :)

I'm not on my computer right now so I'll try to explain as much as I can
