I want to buy one of those today.. I am not sure witch one is better than the other.

I just heard from a friend XYZ logger is shit.

I like the XYZ free version, but I've been hearing a lot of good things about the KingKobra one.

You should wait until someone who has actually tried both of them shows up here, hah.

Magikarp - February 11, 2011, 11:16 am

Still can't debate.. XYZ seems to be more popular.
